

Math 1301 – Contemporary Mathematics Sections 004, 005, and 006

Course Instructor

Mrs. Sarah Hawkins

sarah.hawkins@uta.edu

Office: PKH452

Office Phone: 817-272-5685

Office Hours: Mondays and Fridays from 11-12:45

Textbook and Materials

You have one option for this course and you can purchase your items through the UTA Bookstore.

1. **Access Code and Textbook Bundle:** A Survey of Mathematics with Applications, 9th Ed., Angel, Abbott, and Runde, Pearson Ed. Inc., 2013. ISBN# 1323042539; containing MLP access code.

Additional materials include a scientific calculator. Please note that graphing calculators and calculators that have excessive text and storage capabilities are not allowed.

Course Elements

Attendance Policy

At The University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, I have adopted the following attendance policy. Attendance will be taken daily and students are expected to attend class, be attentive, and participate in discussions/activities.

Schedule of Lessons and Tests

You must complete all assignments and tests by the due dates. Due dates are listed in **MyLabsPlus (MLP)** and also in the Course Schedule located in Blackboard. **All MLP deadline times are in Central Time.**

Grade Calculation

Homework, Tests, Exam	Percent of Grade
Homework/Quizzes	20%
Chapter Tests (Average of 3 Tests)	50%
Comprehensive Final Exam	30%
Total:	100%

- Two of the lowest homework grades and one quiz grade will be dropped at the end of the semester.
- In the event you are not satisfied with one of your three chapter exam scores, you may ask your instructor for a retake. Only ONE retake on a chapter exam of your choosing will be granted. Please reference the course schedule for specific retake dates. You MUST receive email confirmation from

your instructor prior to taking your ONE retake exam. All retakes must be completed prior to the final exam.

Grading Scale

Grades will be computed based on the following distribution. Grades are rounded up accordingly.

90 — 100%	A
80 — 89%	B
70 — 79%	C
60 — 69%	D
Below 60%	F

Homework and Quizzes

All homework and some quizzes will be assigned in MyLabsPlus. (www.uta.mylabsplus.com) All electronic homework and quiz assignments are available to you on the first class day.

- **NO late homework or quizzes will be accepted**, so watch the due dates on the MyLabsPlus calendar. You will receive a zero for any assignments not submitted.
- Homework assignments are set for unlimited access up until the due date and you have 3 attempts per question, however you only have two attempts at each quiz which have a 45 minute time limit and must be completed once opened. Quizzes cannot be saved and resumed later.
- You may also have in-class paper quizzes and assessments. Please be prepared for class as these quizzes may or may not be announced in advance.
- All homework assignments contain learning aids to help you through the material. Be careful not to become overly dependent on these aids or you may not perform well on the exams. You have three chances at a question per attempt. To gain access to the next attempt once a question is marked wrong; simply select the “similar exercise” button at the bottom of the homework screen. Quizzes are designed to check your knowledge retention and therefore do not contain the learning aids except in review mode once the quiz has been submitted.
- A Lockdown program for your browser is required for all electronic quizzes. Be sure that you either, complete your electronic quizzes in the Math Computer Lab, or that you have administrative rights to the computer you are using in order to install this program. The program is a free download and easily installed through the Browser Check.
- If you have trouble completing the assignments, please seek some form of tutoring and/or see your instructor for assistance.

Tests

There will be three online proctored chapter tests throughout the course of the semester. (Please reference the course schedule for exact dates.)

- All chapter tests are found within MLP and are comprised of questions that must be completed within 45 consecutive minutes. Tests cannot be opened, saved, and returned to at a later time.
- You may use one 3x5 index card with notes front and back, a scientific calculator (no cell phones), approved formula sheets, and blank scratch paper which will be provided. No additional materials are allowed.

- The approved formula sheets will be posted to Blackboard.
- All exams are taken in the Math Computer Lab (PKH 308) on the UTA campus during your regularly scheduled class time or announced alternative time frame. You must have your MavID with you on exam day and will be required to sign in upon entering and exiting the lab.
- You may not leave the room during an exam.
- Use of any unauthorized electronic devices or notes during an exam will result in a grade of ZERO.

Final Exam

The final exam is a comprehensive, proctored exam containing material from all sections covered over the course of the semester. (Please reference the course schedule for exact dates.)

- The final is found within MLP and is comprised of questions that must be completed within 135 consecutive minutes. The final cannot be opened, saved, and returned to at a later time.
- You may use two 3x5 index cards with notes front and back, a scientific calculator (no cell phones), approved formula sheets, and blank scratch paper which will be provided. No additional materials are allowed.
- The approved formula sheets will be posted to Blackboard.
- The final exam will be taken in the Math Computer Lab (PKH 308) on the UTA campus. Final exam dates will be announced at least one week prior to final exam week. You must have your MavID with you on exam day and will be required to sign in upon entering and exiting the lab.
- Use of any unauthorized electronic devices or notes during an exam will result in a grade of ZERO.

Course Strategies

The primary methods for course content delivery will be lecture.

- You should bring your textbook with you to class. You will be guided through the notes and course material will be explained.
- Students may work through their homework and quiz assignments outside of class time since the MyLabsPlus program is accessible from any source with an internet connection.

Announcements: Found in *MyLabsPlus*, in *Blackboard*, or via email.

- Students are responsible for all information found in these announcements.
- Students should check for new announcements at least twice a week.

Help for Students

- Math Emporium – computer lab located in Pickard Hall 308, offers free daily tutoring. For details and scheduling visit the website, <http://www.uta.edu/math/emporium/>
- Math Clinic – located in Pickard Hall 325, offers free daily help.
- Supplemental Instruction – information is found on the opening page of the Blackboard website.
- SOAR is a cost/share tutoring service Ransom Hall 205.
- Maverick Resource Hotline (817-272-6107).
- Online help: khanacademy.org.

Software and System Requirements

Mozilla Firefox and Google Chrome are the recommended and supported browsers for this course. The course also has the following options for system requirements:

- Windows 7.0 or higher
- Mac OS x 10.8 or higher

If working outside the lab, students are encouraged to use the Browser Check on the initial page within the MLP system in order to check and/or update (free download) the following software requirements:

- Adobe Flash Player version 11.9 or higher
- Adobe Reader version XI or higher
- Pearson LockDown Browser for Windows version 1.0.5.16 or for a Mac version 1.0.5.05

Course Objectives

Learning Objectives and Outcomes

After completing the course, students should be able to demonstrate the following competencies:

- 1.0 Students will be able to demonstrate problem solving and critical thinking skills using inductive and deductive reasoning.
- 2.0 Students will be able to demonstrate logical thought using sets, logic statements, truth tables and number theory.
- 3.0 Students will be able to recognize and apply algebraic relations, functions and graphs.
- 4.0 Students will be able to evaluate applications containing metric system units and perform unit conversions.
- 5.0 Students will be able to evaluate applications involving consumer and finance mathematics.
- 6.0 Students will be able to demonstrate and apply knowledge of probability and statistics.
- 7.0 Students will be able to demonstrate and apply knowledge in applications involving voting and apportionment methods.

Course Competencies

- 1.0 To demonstrate competency in problem solving and critical thinking, a student should be able to:
 - 1.1 Identify and use inductive and deductive reasoning to reach conclusions.
 - 1.2 Use approximation/estimation to determine reasonableness of results.
 - 1.3 Organize and use information in word problems to solve them.
 - 1.4 Interpret bar and line graphs, pie charts and tables.
 - 1.5 Use set notation to describe and list various types of sets.
 - 1.6 Recognize equivalent sets and equal sets and the null set.
 - 1.7 Determine the cardinal number of a set.
 - 1.8 Identify and describe subsets and determine numbers of distinct subsets.
 - 1.9 Use Venn Diagrams to illustrate relationships among sets and to demonstrate survey results.
 - 1.10 Determine unions and intersections, complements of sets.
 - 1.11 Use number theory to determine divisibility rules.
- 2.0 To demonstrate competency in logical thought, a student should be able to:
 - 2.1 Interpret and express statements in symbolic form.
 - 2.2 Express negations of statements.
 - 2.3 Determine truth values of statements.
 - 2.4 Interpret and use connectors to express compound statements.

- 2.5 Construct truth tables.
 - 2.6 Determine logical equivalence of statements.
- 3.0 To demonstrate competency in algebraic relations, functions and graphs, a student should be able to:
- 3.1 Use order of operations.
 - 3.2 Evaluate formulas and solve for specified variables.
 - 3.3 Identify algebraic relations and functions.
 - 3.4 Solve and apply linear equations.
 - 3.5 Solve and apply linear inequalities.
 - 3.6 Solve and apply quadratic equations.
 - 3.7 Graph linear, quadratic and exponential equations.
- 4.0 To demonstrate competency in the metric system and unit conversions, a student should be able to:
- 4.1 Use metric units and do conversions within the metric system.
 - 4.2 Determine length, area, volume, mass and temperature in the metric system.
 - 4.3 Use dimensional analysis to convert units to and from the metric system.
- 5.0 To demonstrate competency in consumer and finance mathematics, a student should be able to:
- 5.1 Use percents, fractions, and decimals.
 - 5.2 Calculate percent increases and decreases.
 - 5.3 Calculate simple interest.
 - 5.4 Calculate compound interest
 - 5.5 Determine present value.
 - 5.6 Calculate payments, interest on amortized loans.
 - 5.7 Calculate future value, payments and interest on annuities.
- 6.0 To demonstrate competency in probability and statistics, a student should be able to:
- 6.1 Identify and calculate empirical probability.
 - 6.2 Identify and calculate theoretical probability.
 - 6.3 Determine odds against and in favor of an event.
 - 6.4 Create, interpret, and apply frequency distributions and statistical graphs.
 - 6.5 Calculate and interpret common measures of central tendency such as mean, median, mode and mid-range.
- 7.0 To demonstrate competency in voting and apportionment methods., a student should be able to:
- 7.1 Construct and use preference tables.
 - 7.2 Identify and use:
 - 7.2.1 the Plurality voting method,
 - 7.2.2 the Borda Count voting method,
 - 7.2.3 the Plurality with Elimination voting method,
 - 7.2.4 the Pairwise Comparison voting method.
 - 7.3 Identify the flaws in voting methods.
 - 7.4 Identify and use:
 - 7.4.1 Hamilton's Apportionment method,
 - 7.4.2 Jefferson's Apportionment method,
 - 7.4.3 Webster's Apportionment method,
 - 7.4.4 Adams's Apportionment method.
 - 7.5 Identify the flaws in apportionment methods.

Course Policies

Drop Policy:

If you withdraw from the course for any reason, you must follow University procedures. It is your responsibility to execute these procedures correctly and within the deadlines. **Instructors are unable to drop students.** The Math Department Office can help with the withdrawal process. We strongly recommend that you drop the course if you are significantly behind in completing the required assignments. Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/aao/fao>).

Accommodations and Americans with Disabilities Act:

The University of Texas at Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including the *Americans with Disabilities Act (ADA)*. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of that disability. Any student requiring an accommodation for this course must provide the instructor with official documentation in the form of a letter certified by the staff in the Office for Students with Disabilities, University Hall 102. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.

Title IX:

The University of Texas at Arlington is committed to upholding U.S. Federal Law "Title IX" such that no member of the UT Arlington community shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity. For more information, visit www.uta.edu/titleIX.

Academic Integrity:

It is the philosophy of The University of Texas at Arlington that academic dishonesty is a completely unacceptable mode of conduct and will not be tolerated in any form. This course includes a zero tolerance policy for academic dishonesty and students are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence. I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

All persons involved in academic dishonesty will be disciplined in accordance with University regulations and procedures. Discipline may include suspension or expulsion from the University. **Students found guilty of cheating will receive a grade of “F” for the course.**

"Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts." (Regents' Rules and Regulations, Series 50101, Section 2.2)

Student Support Services:

UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to resources@uta.edu, or view the information at www.uta.edu/resources.

Electronic Communication:

UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

Student Feedback Survey:

At the end of each term, students enrolled in classes categorized as “lecture,” “seminar,” or “laboratory” shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs>.

Final Review Week:

A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

Emergency Exit Procedures:

Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist handicapped individuals.

Emergency Phone Numbers:

In case of an on-campus emergency, call the UT Arlington Police Department at **817-272-3003** (non-campus phone), **2-3003** (campus phone). You may also dial 911. We further recommend that you enter the UTA Police Department's emergency phone number into your own mobile phone. For non-emergencies, contact the UTA PD at 817-272-3381.

Student Intellectual Property Rights Statement:

A student shall retain all rights to work created as part of instruction or using university technology resources.
