

**CSE 4331/5331: DBMS Models and Implementation**  
Fall 2015

**Instructor(s):** Prof. Sharma Chakravarthy

**Office Number:** 632 ERB

**Office Telephone Number:** 817 272-2082

**Email Address:** sharma@cse.uta.edu

**Faculty profile:** <https://www.uta.edu/profiles/upendranath-chakravarthy>

**Office Hours:** Tu/Th: 11 am to 12:15pm + by appointment

**GTA : Jay Bodra, email:** [jay.bodra@mavs.uta.edu](mailto:jay.bodra@mavs.uta.edu)

**Office Hours:** TBD

**Section Information:** CSE 4331/5331 - 001

**Time and Place of Class Meetings:** Tu/Th 12:30pm to 1:50pm, COBA 141

**Course URL:** <https://www.uta.edu/faculty/sharmac/courses>

**Research URL:** <http://itlab.uta.edu/sharma>

**Blackboard URL:** <https://elearn.uta.edu>

**Description of Course Content:** DBMS system implementation techniques include query optimization, transaction processing, concurrency control, buffer management, and recovery. Introduction to advanced database models, such as cloud computing, NoSQL DBMSs will be covered. Prerequisite: CSE 3330/CSE 5330, or consent of instructor.

**Objective:** The objective of this course is to understand the theoretical underpinnings as well as design and implementation of various components of a relational database management system. Through a series of projects, students will understand and appreciate the implementation techniques used for various modules, such as query processor/optimizer, B+ tree index, buffer manager, transaction manager and recovery subsystems. We will introduce newer paradigms of data processing such as map/reduce and NoSQL to contrast it with relational DBMSs.

**Course Outline:** This course will cover various components of a Database Management system mainly from the systems/implementation viewpoint (as opposed to the users' viewpoint as in Database I). Topics will be covered under four modules: i) storage and indexing (File types, B+ trees, Hash indexes, access analysis), ii) Transaction Management and concurrency control (ACID properties and their need, two-phase commit, ARIES recover, relationship between this and rest of the system), iii) Cloud computing and Big Data (need for new paradigm, map/reduce details, big data applications) and iv) query optimization (cost model, system R query optimization).

**Student Learning Outcomes:** A clear understanding of the inner-workings of a relational DBMS. A detailed Understanding of different modules as well and implementation of some of the modules of a relational DBMS. Ability to use these approaches/techniques to new problems encountered.

**Required Textbooks and Other Course Materials:** Database management Systems by R. Ramakrishnan and J. Gehrke (Third Edition) ISBN No. 0-07-246563-8, McGraw Hill publishers, 2003

**Descriptions of major assignments and examinations: Project:** Since the emphasis of this course is on implementation techniques, there will be a number of hands-on implementation projects in Java/C++ as part of this course. I plan on using Minibase for implementing Heap files, join algorithms, components of a transaction manager, buffer pool manager, and/or access methods. Students may be asked to present the details

of their implementation in the class. Evaluation of the project will have an optional discussion session with the students to discuss the approach taken.

**Attendance:** At The University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. I will take attendance in the class aperiodically. If you are serious about learning and doing well in the course (i.e., exams and projects) you should not only attend lectures but interact during the lectures by asking questions in the class. The class presentation on your projects will constitute 5% of overall grade

**Grading:** There will be 3 hands-on projects that will constitute approximately 45% of the grade. There will be 3 in-class tests that will constitute approximately 50% of the grade. This is an initial proposal. Class attendance and presentation will carry 5% of the grade. The instructor reserves the right to re-distribute the percentages if deemed necessary. Students may be asked to make an in-class presentation on the project experiences. Attendance and class participation is important for doing well on the course. **Grading for undergraduates will be done separately from graduates in a combined offering. Based on past observations, typically, class average corresponds to a B grade. One standard deviation above the class average is likely to earn an A; passing grade is 50%. Note that you need**

**to do consistently well on all projects and exams to earn an A grade. Undergraduate and graduate classes will be graded separately.**

**Make-up Exams:** The class schedule, exam, and project due dates are tentative. Project deadlines and exam dates may be changed (with sufficient notice) based on the progress made in the class. No makeup tests or exams will be given unless there is a justifiable, documented reason.

**Expectations for Out-of-Class Study:** Beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least an additional 9 hours per week of their own time in course-related activities, including reading required materials, completing assignments, preparing for exams, etc. Meet the instructor or the TA for any doubts on projects or class lecture material.

**Grade Grievances:** Once the grade of a quiz/exam/project is distributed, you will have 5 business days to dispute it and get it re-evaluated. No re-evaluation will be entertained after the 5 day period. For projects, as part of the document, what has been designed and implemented by each partner (if it is done as a team) should be clearly stated and documented. All team members will get the same grade on the project.

**Drop Policy:** Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through

a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/aao/fao/>).

**Disability Accommodations:** UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including *The Americans with Disabilities Act (ADA)*, *The Americans with Disabilities Amendments Act (ADAAA)*, and *Section 504 of the Rehabilitation Act*. All instructors at UT Arlington are required by law to provide “reasonable accommodations” to students with disabilities, so as not to discriminate on the basis of disability. Students are responsible for providing the instructor with official notification in the form of a letter certified by the **Office for Students with Disabilities (OSD)**. Students experiencing a range of conditions (Physical, Learning, Chronic Health, Mental Health, and Sensory) that may cause diminished academic performance or other barriers to learning may seek services and/or accommodations by contacting:

**The Office for Students with Disabilities, (OSD)** [www.uta.edu/disability](http://www.uta.edu/disability) or calling 817-272-3364.  
**Counseling and Psychological Services, (CAPS)** [www.uta.edu/caps/](http://www.uta.edu/caps/) or calling 817-272-3671.

Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at [www.uta.edu/disability](http://www.uta.edu/disability) or by calling the Office for Students with Disabilities at (817) 272-3364.

**Title IX:** *The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit [uta.edu/eos](http://uta.edu/eos). For information regarding Title IX, visit [www.uta.edu/titleIX](http://www.uta.edu/titleIX).*

**Academic Integrity:** Students enrolled all UT Arlington courses are expected to adhere to the UT Arlington Honor Code:

*I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.*

*I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.*

UT Arlington faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University.

**Electronic Communication:** UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

**Student Feedback Survey:** At the end of each term, students enrolled in classes categorized as “lecture,” “seminar,” or “laboratory” shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback enters the SFS

database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs>.

**Final Review Week:** A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

**Emergency Exit Procedures:** Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

**Student Support Services:** UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to [resources@uta.edu](mailto:resources@uta.edu), or view the information at [www.uta.edu/resources](http://www.uta.edu/resources).

## Course Schedule

A detailed course schedule is provided on the first day of class and it is also posted on the course web site.

**Emergency Phone Numbers:** In case of an on-campus emergency, call the UT Arlington Police Department at **817-272-3003** (non-campus phone), **2-3003** (campus phone). You may also dial 911.

[We strongly recommend that you place this information at the very end of your course syllabus or in the footer of the first page. We further recommend that you enter the UTA Police Department's emergency phone number into your own mobile phone. For non-emergencies, contact the UTA PD at 817-272-3381.]

---

**This final section is not part of the syllabus template, but a message from the UT Arlington Library.**

Faculty members should feel free to incorporate any of the following information into your course syllabus or other course materials.
