

Magnetic Properties of Materials

Instructor: Yaowu Hao

Office Number: ELB 333

Office Telephone Number: 817-272-0752

Email Address: yhao@uta.edu

Faculty Profile: <https://www.uta.edu/mentis/public/#profile/profile/view/id/1196/>

Office Hours: Tuesday and Thursday 11:00am- 12:00pm

Section Information: MSE 5333-001

Time and Location of Class Meetings: Tuesday and Thursday, 9:30-10:50am, at PH 306

Description of Course Content: The course will cover the origin of magnetism in materials, magnetostatics, magnetic domains and domain walls, magnetic anisotropies, magnetization processes, hard and soft magnetic materials. Applications of magnetic materials such as magnetic nanoparticles for bioapplications and magnetic data storage technology will be discussed.

Student Learning Outcomes: Students become familiar with the approach using mathematical model to explain magnetic phenomena and applications of magnetic materials.

Required Textbooks and Other Course Materials:

Introduction to Magnetic Materials

Cullity, B. D. and Graham, C. D., Wiley-IEEE Press; 2 edition (December 10, 2008), ISBN-10: 0471477419, ISBN-13: 978-0471477419.

Descriptions of major assignments and examinations:

There will be several quizzes, one in-class exam about half way through the term, and the final exam. Questions in quizzes are from homework questions. The final exam is comprehensive.

Attendance:

Attendance is required. Attendance counts 10% of the final grade. If a student misses more than three lectures, she/he cannot get an A final grade.

Grading:

Attendance	10%
Quizzes	20%
Mid-term Exam	25%
Final Exam	45%

Drop Policy:

Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (HYPERLINK "<http://www.uta.edu/aao/fao/>").

Americans with Disabilities Act: The University of Texas at Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including the *Americans with Disabilities Act (ADA)*. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of that disability. Any student requiring an accommodation for this course must provide the instructor with official documentation in the form of a letter certified by the staff in the Office for Students with Disabilities, University Hall 102. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at HYPERLINK "<http://www.uta.edu/disability>" www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.

Academic Integrity: Students enrolled in this course are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.

I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

UT Arlington faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University.

Student Support Services: UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to HYPERLINK "<mailto:resources@uta.edu>" resources@uta.edu, or view the information at HYPERLINK "<http://www.uta.edu/resources>" www.uta.edu/resources.

Electronic Communication: UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at HYPERLINK "<http://www.uta.edu/oit/cs/email/mavmail.php>" <http://www.uta.edu/oit/cs/email/mavmail.php>.

Student Feedback Survey: At the end of each term, students enrolled in classes categorized as "lecture," "seminar," or "laboratory" shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit HYPERLINK "<http://www.uta.edu/sfs>" <http://www.uta.edu/sfs>.

Final Review Week: A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

Emergency Exit Procedures: Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist handicapped individuals.

Course Schedule.

Lecture 1	Aug. 25 (Th)	History, definition and units
Lecture 2	Aug. 30 (T)	History, definition and units
Lecture 3	Sep. 1 (Th)	Magnetostatics
Lecture 4	Sep. 6 (T)	Diamagnetism and paramagnetism
Lecture 5	Sep. 8 (Th)	Paramagnetism
Lecture 6	Sep. 13 (T)	Paramagnetism
Lecture 7	Sep. 15 (Th)	Paramagnetism
Lecture 8	Sep. 20 (T)	Ferromagnetism
Lecture 9	Sep. 22 (Th)	Ferrimagnetism and Antiferromagnetism
Lecture 10	Sep. 27 (T)	Experimental methods
Lecture 11	Sep. 29 (Th)	Experimental methods
Lecture 12	Oct. 4 (T)	Magnetic anisotropy
Lecture 13	Oct. 6 (Th)	Domains and domain walls
Lecture 14	Oct. 11 (T)	Domains and domain walls
Lecture 15	Oct. 13 (Th)	Mid-term Exam
Lecture 16	Oct. 18 (T)	Magnetization process
Lecture 17	Oct. 20 (Th)	Magnetization process
Lecture 18	Oct. 25 (T)	Magnetization process
Lecture 19	Oct. 27 (Th)	Magnetization process
Lecture 20	Nov. 1 (T)	Superparamagnetism and fine particles
Lecture 21	Nov. 3 (Th)	Hard magnetic materials
Lecture 22	Nov. 8 (T)	Soft magnetic materials
Lecture 23	Nov. 10 (Th)	Magnetic data storage technology
Lecture 24	Nov. 15 (T)	Magnetic data storage technology
Lecture 25	Nov. 17 (Th)	Magnetic resonance imaging
Lecture 26	Nov. 22 (T)	Magnetic resonance imaging
Lecture 27	Nov. 29 (T)	Magnetic resonance imaging
Lecture 28	Dec. 1 (Th)	Magnetic resonance imaging
Lecture 29	Dec. 6 (T)	Summary

Final Exam Thursday Dec. 15 8 - 10:30 a.m.

As the instructor for this course, I reserve the right to adjust this schedule in any way that serves the educational needs of the students enrolled in this course.
