

IE 5301: Introduction to Operations Research
Fall 2017

Instructor: Jay Rosenberger

Office Number: Woolf 420-D

Office Telephone Number: 817-272-5787

Email Address: jrosenbe@uta.edu

Faculty Profile: <https://www.uta.edu/profiles/jay-rosenberger>

Social Media: LinkedIn (www.linkedin.com/in/jaymrosenberger), Twitter (@j_rosenbe)

Office Hours: Woolf 420-D MWF 11:00 am- 12:00 pm.

Section Information: IE 5301-001/ IE 5301-004

Time and Place of Class Meetings: Nedderman Hall 109, MWF 9:00 AM – 9:50 AM (004), MWF 10:00 AM - 10:50 AM (001)

Description of Course Content: A survey of quantitative methods to develop modeling and decision-making skills. Topics include linear programming, goal programming, the simplex and dual simplex algorithms, transportation and assignment problems, integer programming, network analysis, nonlinear programming, decision trees, Markov Chains, and queuing theory.

Student Learning Outcomes: At the end of this course students should be able to (1) understand the basic concepts of operations research, (2) apply those concepts to solving numerical problems, and (3) use some software to solve decision problems.

Required Textbooks and Other Course Materials:

- *Operations Research* by Taha, ninth (or eighth or seventh) edition, Pearson Education.
- Laptop, mobile phone, or table with CourseKey (<http://thecoursekey.com/>) and GPS capability. CourseKey is in iTunes, Google Play, and other app stores.

Mailbox: IMSE Department P.O. Box 19017

GTA: Keval Parmar (Keval.Parmar@mavs.uta.edu), Hadis Anahideh (hadis.anahideh@mavs.uta.edu)

GTA Office Hours: Keval TTh 3:00 pm – 4:30 pm in WH400, Hadis TBD.

Descriptions of major assignments and examinations: There are two midterm exams, a comprehensive final exam, short homework assignments, and attendance. Midterm 1 is on linear programming, goal programming, game theory, the simplex algorithm, the dual simplex algorithm, integer programming problems, transportation and assignment problems, and network analysis. Midterm 2 is on nonlinear programming and decision trees. The Final Exam is comprehensive but focuses on markov chains and queuing theory. Homework assignments will be brief single question problems.

Prerequisites: IE 3301 (Engineering Probability), or IE 5317 (Introduction to Statistics), or equivalent.

Test Policies:

- **Before an exam:** In class students must take exams during the class periods during which they are enrolled. Students must bring a UTA I.D. card and a calculator to the exam. Students are not allowed to leave the exam room and return to take the test, so **students should use the restroom before the exam**. The instructor will provide a seating chart, and notes for the exam.

Students should take the provided notes, sit in their assigned seats, and clear the desk area of all materials except: pens, pencils, erasers, calculators, and provided notes.

- **During an exam:** Students are only allowed to use pens, pencils, erasers, calculators, and provided notes. **Any other materials used during the exam will be considered a violation of the UTA honor code and will result in disciplinary action.** Mobile phones, computers, and other communication devices must be turned off (not vibrate). The instructor will collect mobile phones that ring or vibrate during the exam. **Students should not write on the provided notes.** Students should keep their eyes on their own exams. Students are not allowed to leave the exam room and return to take the test. **All suspicious behavior during the exam will be noted by the instructor.** In certain circumstances, students will be confronted by the instructor.
- **After an exam:** When all of the exams have been graded, scores will be posted on Blackboard. The exams will be reviewed in class. Students who wish to see their graded exams must come to office hours. Students who wish to keep a copy of their exams must come to office hours and remove the exam staple, so the exam can be copied. The instructor highly encourages students who perform poorly on exams to come discuss them during office hours.

Lecture and Problem Review Classes: In addition to exams periods, there are two types of class periods: lecture classes and problem review classes. *Lecture classes* will typically be held at 9:00-9:50 am will consist of new materials. *Problem review classes* will usually occur at 10:00-10:50 am, during which the instructor or the TA will review homework, old exams, or previously taught material based upon requests from the students. No new material will be taught during review classes. Students are encouraged to attend both lecture and review classes, but they may choose to watch the recorded video for either class.

Attendance: At the University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, I have established following attendance policy: Daily attendance will be taken on and after census date. For in class students, CourseKey will be used to take attendance 9:00 am-10:50 am in NH 109. Distance students may receive attendance credit either using CourseKey or streaming one of the videos on each class date on their own student ID login on or before 5:00 pm on the last day of class. Downloading the video or watching it on someone else's student ID login will not count towards a distance student's attendance. The percentage of daily attendance will be scaled to 1% and added to your class score.

Homework: On many lecture periods, the instructor will announce a short homework assignment. Homework should be submitted via Blackboard by either 5:00 PM on the date of the third subsequent lecture (usually one week) or 5:00 PM on the date of the first lecture after census date, whichever date is later. **All homework submitted after the due date and time will not be given credit.** The percentage of homework will be scaled to 4% and added to your class score. Homework is not rigorously graded and will be given full credit for a "good attempt". Homework may only be graded weekly.

Class Courtesy: The instructor insists on a quiet classroom. This includes silencing cell phones before class and no whispering during class. Texting in class is fine but not during exams. Students who come to class late should try to enter the classroom as discreetly as possible. Due to noise in the hallway, the hallway door, which may be locked, may be shut 10 minutes after class begins. Students who do not come to class within the first 10 minutes of the start of class may not be able to attend class. In this case, the student should watch the recorded video. **Do not knock on the door if it has already been shut. Students who are disruptive in class will be asked to leave.**

Grading: Grading Format: A = 90, B = 80, C = 70, D = 60, F = below 60. Exams are curved as described below, but homework is not curved. The grade weights are as follows:

- Midterm exam 1 is 23%
- Midterm exam 2 is 23%
- Comprehensive Final exam is 50%

- Homework is 4%
- Attendance is 1%

Observe that there is 101% available. **There is no other course credit available, and students frequently regret not submitting all homework and attending classes daily.**

Each exam receives a raw score based upon performance on problems and the point allocations described on the exam. Usually these points total 100 but sometimes there are bonus points. Using the average and standard deviation of the raw scores, each exam receives a preliminary curved score based upon a predetermined bell curve. Usually, the predetermined bell curve has a mean of 83 and a standard deviation of 7. Finally, each exam receives a curved score that is the maximum of the raw score and the preliminary curved score. An exam's curved score is what is used to determine the final class grade. The GTA will email exam scores as soon as exam scores have been curved.

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels.

Expectations for Out-of-Class Study: Beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least an additional 9 hours per week of their own time in course-related activities, including reading required materials, completing assignments, preparing for exams, etc.

Make-up Exams: Makeup tests will only be given for documented illnesses or emergencies. If you cannot attend a test for any reason, you should make every effort to contact me beforehand.

Drop Policy: Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/aao/fao/>).

Disability Accommodations: UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including *The Americans with Disabilities Act (ADA)*, *The Americans with Disabilities Amendments Act (ADAAA)*, and *Section 504 of the Rehabilitation Act*. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of disability. Students are responsible for providing the instructor with official notification in the form of **a letter certified** by the Office for Students with Disabilities (OSD). Only those students who have officially documented a need for an accommodation will have their request honored. Students experiencing a range of conditions (Physical, Learning, Chronic Health, Mental Health, and Sensory) that may cause diminished academic performance or other barriers to learning may seek services and/or accommodations by contacting:

The Office for Students with Disabilities, (OSD) www.uta.edu/disability or calling 817-272-3364. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability.

Counseling and Psychological Services, (CAPS) www.uta.edu/caps/ or calling 817-272-3671 is also available to all students to help increase their understanding of personal issues, address mental and behavioral health problems and make positive changes in their lives.

Non-Discrimination Policy: *The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information,*

and/or veteran status in its educational programs or activities it operates. For more information, visit uta.edu/eos.

Title IX Policy: The University of Texas at Arlington ("University") is committed to maintaining a learning and working environment that is free from discrimination based on sex in accordance with Title IX of the Higher Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in educational programs or activities; Title VII of the Civil Rights Act of 1964 (Title VII), which prohibits sex discrimination in employment; and the Campus Sexual Violence Elimination Act (SaVE Act). Sexual misconduct is a form of sex discrimination and will not be tolerated. *For information regarding Title IX, visit www.uta.edu/titleIX or contact Ms. Jean Hood, Vice President and Title IX Coordinator at (817) 272-7091 or jmhood@uta.edu.*

Academic Integrity: All students enrolled in this course are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.

I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

Instructors may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University. For more on academic integrity, see <http://www.uta.edu/engineering/current-students/academic-honesty.php>.

Instructor Comments on Scholastic Dishonesty: While not on the standard syllabus, the instructor is compelled to warn students about scholastic dishonesty. Please read all 5 points below that include a description of what will happen if the instructor finds evidence that a student has cheated, colluded, or plagiarized **in any way** on submitted materials in this class.

1. The instructor will submit a referral to the Office of Student Conduct with the intention of reducing that submitted material grade to 0, which will likely lower the student's final grade in the class. **The instructor will not accept any excuse, plea, apology, or justification for the student's actions. Any question about cheating, colluding, or plagiarism should be discussed with the instructor before submitting the materials.**
2. More than likely the Office of Student Conduct will agree with the instructor's conclusion and allow him to make the grade change. If the student is not already on Scholastic Dishonesty Disciplinary Probation, the Office of Student Conduct will almost certainly put him/her on probation. If the student is already on Scholastic Dishonesty Disciplinary Probation, the University will likely dismiss the student from the University.
3. The low final grade received in the class may require the student to retake this class or take another class in a subsequent semester to fulfill graduation requirements, which could delay graduation.
4. The low final grade received in the class may put the student on Academic Probation if s/he is not already on Academic Probation. Academic Probation can lead to the student being dismissed from the IMSE Program.
5. Scholastic Dishonesty Disciplinary and/or Academic Probation ensure that the student cannot have a Graduate Teaching Assistantship (GTA). In addition, although this is not a formal policy, a student who was previously on either Scholastic Dishonesty Disciplinary Probation or Academic Probation has almost never been offered a GTA or any IMSE scholarship or award.

Although the above may sound severe, the instructor, the IMSE Department, and the University take scholastic dishonesty extremely seriously. For more on UTA's Scholastic Dishonesty Policy, please see the following link:

<https://www.uta.edu/conduct/faculty/suspected-dishonesty.php>

Let's try to make this a successful honest class.

Electronic Communication: UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

Campus Carry: Effective August 1, 2016, the Campus Carry law (Senate Bill 11) allows those licensed individuals to carry a concealed handgun in buildings on public university campuses, except in locations the University establishes as prohibited. Under the new law, openly carrying handguns is not allowed on college campuses. For more information, visit <http://www.uta.edu/news/info/campus-carry/>

Student Feedback Survey: At the end of each term, students enrolled in classes categorized as lecture, seminar, or laboratory shall be directed to complete a Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs>.

Final Review Week: A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

Emergency Exit Procedures: Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit, which is located to the right as you exit NH 109 and 110 (west). When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist handicapped individuals.

Student Support Services: UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include [tutoring](#), [major-based learning centers](#), developmental education, [advising and mentoring](#), personal counseling, and [federally funded programs](#). For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to resources@uta.edu, or view the information at <http://www.uta.edu/universitycollege/resources/index.php>.

The IDEAS Center (2nd Floor of Central Library) offers **free** tutoring to all students with a focus on transfer students, sophomores, veterans and others undergoing a transition to UT Arlington. To schedule an appointment with a peer tutor or mentor email IDEAS@uta.edu or call (817) 272-6593.

The English Writing Center (411LIBR): The Writing Center Offers free tutoring in 20-, 40-, or 60-minute face-to-face and online sessions to all UTA students on any phase of their UTA coursework. Our hours are 9 am to 8 pm Mon.-Thurs., 9 am-3 pm Fri. and Noon-6 pm Sat. and Sun. Register and make appointments online at <http://uta.mywconline.com>. Classroom Visits, workshops, and specialized services for graduate students are also available. Please see www.uta.edu/owl for detailed information on all our programs and services.

The Library's 2nd floor Academic Plaza offers students a central hub of support services, including IDEAS Center, University Advising Services, Transfer UTA and various college/school advising hours. Services are available during the library's hours of operation. <http://library.uta.edu/academic-plaza>

Librarian to Contact:

Martin Wallace
martin.wallace@uta.edu
817-272-3924
<http://library.uta.edu/staff/martin-wallace>

Website: Blackboard (<http://elearn.uta.edu>)

Blackboard Help: Richard Zercher (zercher@uta.edu)

Echo 360 Help: For problems viewing ClassRev (Echo360) recordings contact classroomsupport@uta.edu.

Distance Student Test Policies: Exams must be taken with 24 hours of the regularly scheduled exam. Students who live within 50 miles of campus must come to campus to take all exams. Students should make every effort to take exams on-campus during the regularly scheduled time. If this is not possible, alternate exam times may be scheduled. Students living more than 50 miles from campus may take the exam with an approved proctor. Students will be responsible for identifying a proctor. Proctors must be approved by the faculty at least two weeks before the first exam. Distance testing must follow all the College of Engineering guidelines, located at <http://www.uta.edu/engineering/future-students/engineering-online/proctor-information.php>.

Distance Student Contact and Assignment Policies: Distance students are required to communicate with the faculty before the second class period. Distance students are expected to complete all of the regular requirements for a class. **This includes submission of homework by the same due date and time as those of the in-class students via Blackboard.** Distance students are encouraged to attend classes when possible. **To receive attendance credit, distance students who attend the lecture classes should sign the attendance sheet, and distance students who watch the video need to watch at least 95% of it on their own student ID login.**

Course Schedule:

Date	9:00-9:50 am	10:00-10:50 am	HW Due Date	Topic
8/25/17	Lecture 1a	Lecture 1b	9/11/17	syllabus review, linear programming, goal theory
8/28/17	Lecture 2	Review	9/11/17	linear programming, goal programming, a
8/30/17	Lecture 3	Review	9/11/17	the simplex algorithm
9/1/17	Lecture 4	Review	9/11/17	the simplex algorithm
9/4/17	Labor Day			
9/6/17	Lecture 5	Review	9/13/17	the simplex algorithm
9/8/17	Lecture 6	Review	9/15/17	the simplex algorithm
9/11/17	Lecture 7	Review	9/18/17	the dual simplex algorithm
9/13/17	Lecture 8	Review	9/20/17	the dual simplex algorithm

9/15/17	Lecture 9	Review	9/22/17	integer programming problems
9/18/17	Lecture 10	Review	9/27/17	integer programming problems
9/20/17	Lecture 11	Review	9/29/17	transportation and assignment problems,
9/22/17	Lecture 12	Review	10/2/17	transportation and assignment problems,
9/25/17	Review	Review		
9/27/17	Midterm 1			
9/29/17	Lecture 13	Review	10/6/17	nonlinear programming
10/2/17	Lecture 14	Review	10/9/17	nonlinear programming
10/4/17	Lecture 15	Review	10/11/17	nonlinear programming
10/6/17	Lecture 16	Review	10/13/17	nonlinear programming
10/9/17	Lecture 17	Review	10/16/17	nonlinear programming
10/11/17	Lecture 18	Review	10/18/17	nonlinear programming
10/13/17	Lecture 19	Review	10/20/17	nonlinear programming
10/16/17	Lecture 20	Review	10/25/17	nonlinear programming
10/18/17	Lecture 21	Review	10/27/17	decision trees
10/20/17	Lecture 22	Review	10/30/17	decision trees
10/23/17	Lecture 23	Review	11/1/17	decision trees
10/25/17	Review	Review		
10/27/17	Midterm 2			
10/30/17	Lecture 24	Review	11/6/17	markov chains
11/1/17	Lecture 25	Review	11/8/17	markov chains
11/3/17	Lecture 26	Review	11/10/17	markov chains
11/6/17	Lecture 27	Review	11/13/17	markov chains
11/8/17	Lecture 28	Review	11/15/17	markov chains
11/10/17	Lecture 29	Review	11/17/17	queuing theory
11/13/17	Lecture 30	Review	11/20/17	queuing theory
11/15/17	Lecture 31	Review	11/22/17	queuing theory
11/17/17	Lecture 32	Review	11/29/17	queuing theory
11/20/17	Lecture 33	Review	12/1/17	queuing theory
11/22/17	Lecture 34	Review	12/4/17	queuing theory
11/24/17	Thanksgiving			
11/27/17	Lecture 27	Review	12/4/17	queuing theory
11/29/17	Lecture 28	Review	12/6/17	queuing theory
12/1/17	Lecture 29	Review	12/8/17	queuing theory
12/4/17	Review	Review		
12/6/17	Review	Review		
12/11/17	Final Exam	001 @ 8:00 am-10:30 am		
12/13/17	Final Exam	004 @ 8:00 am-10:30 am		

The instructor for this course reserves the right to adjust this schedule in any way that serves the educational needs of the students enrolled in this course.

<p>Emergency Phone Numbers: [Optional but strongly recommended] In case of an on-campus emergency, call the UT Arlington Police Department at 817-272-3003 (non-campus phone), 2-3003 (campus phone). You may also dial 911. Non-emergency number 817-272-3381</p>
