TK20

Tk20: You will be using Tk20, a comprehensive data management system, and you must purchase it. The College of Education has adopted Tk20 to provide us with powerful tools to manage our growth and streamline our processes to enable us to meet your needs more efficiently and effectively. The set of Tk20 tools that is required as a course text is called Tk20 HigherEd. We understand that textbooks and materials can be expensive, and we strive to not create an unnecessary financial burden when we select textbooks for courses. **Tk20 is a purchase that you will use throughout your program, but you purchase it once.** The following listing provides key details about the use of Tk20 in your program of study.

- Tk20 will be the place where you submit key performance artifacts and build your academic performance portfolio.
- Tk20 also serves as the centralized location for submitting program forms and field placement documents.
- Tk20 will help ensure continuous quality of programs and preparation, which will result in a better experience for you and increase the value of the degrees and certifications you complete here.
- For designated key assessment assignments, you must submit your work in both Tk20 and in Blackboard to receive credit.
- It is best to purchase Tk20 during the initial weeks of your first course so that you have access to Tk20 for submitting work on time.
- You will not be penalized for any Tk20 technical problems that cannot be avoided, but you must have access to TK20 so that you can submit work once any technical delays are addressed.
- On-line tutorials and training materials have been organized to orient you to the Tk20 system, and information is provided to address questions you have and how to purchase Tk20: <https://www.uta.edu/coed/academics/tk20/index.php>.

Professional Dispositions: Each student/candidate in the College of Education at UTA will be evaluated on Professional Dispositions by the faculty and staff in each professional education course per semester. These dispositions are identified as essential for a highly-qualified professional. Instructors and program directors will work with students/candidates rated as “unacceptable” in one or more stated criteria. The student/candidate will have an opportunity to develop a plan to remediate any digressions. If digression(s) are not, or cannot be successfully remediated as in the case of an egregious digression, a determination will be made by Committee on continuation or dismissal from the College of Education.

The College of Education Conceptual Framework serves as a guide for our professional education programs. It highlights our commitment to excellence across courses and clinical experiences and reflects current research and alignment to professional standards. This document describes how we are dedicated to the development of highly

skilled and ethical education professionals who are also intellectual and educational leaders. The UTA College of Education Conceptual Framework may be found at this link: <http://www.uta.edu/coed/about/conceptual-framework.php> **TK20 NOTE: **The assignment you will be uploading to the TK20 site for this class is the *Guided Reading Lesson Plan*. Submission of this assignment to TK20 is required.**

Attendance: At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, [insert your attendance policy and/or expectations, e.g. "I will take attendance sporadically" or "I have established the following attendance policy: ..."] However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via Blackboard. This date is reported to the Department of Education for federal financial aid recipients.

ONLINE LATE WORK POLICY--

Some assignments may be accepted up to a day after a deadline but a penalty of 25% will be assessed any assignment that is late. **After the late work submission deadline, you cannot receive credit for an assignment.** Check your schedule of assignment deadlines carefully; some assignments may not be accepted late based on the course schedule.

As educators you expect your future students to do all work assigned and I expect the same of you. Use the rubrics to guide your work. Be prepared for online discussions by doing a close and careful reading and analysis of the required readings. **Tip: Enter all due dates into your calendar/phone calendar, etc.**

DESCRIPTION OF ASSIGNMENTS: PLEASE READ CAREFULLY

Introduction and Replies to Peers (10 points)

Post general introduction of yourself to the discussion board on blackboard, plus five or more replies to classmates. (Week 1). Post to "Discussions".

Lesson Plan Reflections on Folder of Lessons on Blackboard (5 reflections X 10 Points= 50 Points)

Lesson Plan Reflections on Folder of Lessons on Blackboard (5 reflections X 10 Points= 50 Points). Read and summarize literacy-focused online lessons plans and resources that are provided on Blackboard. The lessons will be located within the "Readings" folder for each session. Selected lessons and lesson-related resources will be posted for

you to read and summarize in 2-3 pages, using a required provided template (size 11 font, single-spaced). Ten points each. These will be scored holistically for completeness and depth of reflection. You need to also attend the webinar for each module or view the recording and include your reflection about the webinar (live or recording) in the same lesson plan reflection. The lessons viewed will correspond to session topic. The webinars will be broader in focus!

The purpose of this assignment is to reflect on usable knowledge for designing literacy instruction.

There will also be a corresponding recorded webinar series (one recorded video per session).

Webinar Topics: Focus on Lesson Planning: Designing, Assessing, Engaging, and Organizing!

The recorded webinar series will be five 1-hour interactive webinars that will review basics of lesson planning, with a focus on language and literacy development. The focus is on *evidence-based practice* in lesson design. The series is aimed at preservice teachers. Emphasis on using digital tools for effective planning, teaching, and assessment will be emphasized!

NOTE: All webinars are recorded for Fall, 2018 and you do not have to attend the live webinar.

Objectives for Webinar Recordings:

- Gain confidence and skill at writing lesson objectives and goals.
- Better align objectives, instruction, and assessment.
- Create more engaging lessons with differentiations built into lesson design.
- Effectively integrate digital learning in meaningful and authentic ways.
- Meet new colleagues on the live webinar and connect with other UTA students across different courses!
- Make use of digital resources to stay digitally connected with other educators and great websites!
- Review/refresh your skills at lesson design.

Book Club Discussion Board Journals (2 entries Posted + Comments 2 book clubs X 20 Points Each DB= 40 points)

Description: Candidates will engage in an electronic discussion in response to the book club books. The electronic discussion has two parts: a) candidate's original post the designated book, b) candidate's substantive and detailed replies to peers.

You will have a total of **two book club journals (one for each of the two book clubs)**. You will discuss these in small groups of about 6-8 students on the discussion board during the designated weeks. A journal (your initial post) is at least 500 words or more (single-spaced; 11 or 12 font). The rubric will be posted on Blackboard and sent via UTA email.

Literature Circle Discussion. For this post, you will work in teams to provide further insight into the book from an educational perspective. Each person will have a task in the group. Examples of tasks will be things like:

-*Discussion director*-Lead the group by posing some questions to get the group thinking. Include at least 3-4 open ended questions to choose from.

-*Lesson Plan Leader*-Locate lesson plans online that relate to the book (elementary-focused) and explain how they are useful.

-*Connectors*: Find text-to-world connections (real life connections) and text-to-text connections (similar books or authors)

-*Gist Generators*: Describe the key ideas of the book (main ideas) in your own words.

Tutorials for each book will be posted on Blackboard to help you! Please make use of the tutorials!

The directions and rubrics for each of the book clubs on Blackboard and will also be sent via UTA email.

4. Your initial post should be at least **500 words or more** (*not* including the guiding questions you cut and paste into the response). Do not submit a skeletal or superficial response. Please do the readings at the *beginning* of each session so you have time to reflect upon the readings and to also search for and/or create an artifact. Do a word count before you submit! <http://www.wordcounter.net/>

Part B: Replies: Following response posting, candidates will return to the discussion board to read and **reply to at least three or more peer's responses**.

Grading Rubric for Discussion Board Postings (20 points for Part A and Part B) will be posted on Blackboard and will be sent via UTA email.

Posting and Replies Cycle for Discussion Board Posts and Comments

NOTE: For the weeks we are doing journal discussion boards, The journal posting and replies/comments cycle is always:

- Do your initial journal post (Part A w/required template) by Thursday at 11:59 pm (CST)
- Do your formal replies (5 or more replies, Part B) by Saturday at 6:00 pm (CST)
- Do your informal follow-up replies (Part B) by Sunday at 11:59 pm (CST)

Post your book club journal **earlier than the Thursday night deadline** to avoid last-minute work. We value **early posting** as it allows others more *flexibility* in being able to post comments over the weekend. Be sure to do informal follow-up replies to others' replies to your post. *****Late comments will receive zero points.**

**Service Learning and Reflections (2 entries + Comments
2 Reflections X 20 Points= 40 points
&
Sign-up for project: written reflection (5 points))**

Service learning allows you to practice literacy learning while helping a community partner! A list of opportunities will be provided. You can also create your own service opportunity (please contact me ASAP to confirm details of your request if you create your own service project outside of the designated ones on the sign up list!) Please sign up right away!

Please select a project by or before September 2. If you choose to work with a community partner, you will also need to do a background check. This take a bit of time so if you do a project with Arlington Public Library or with Readers2Leaders, you might want to sign up earlier to get the background check started! I encourage you to look at all the options.

Time Commitment: This service project is fairly "light" in terms of time. You will only need to complete 8-15 hours total service over the entire semester. Eight hours is the minimum for the semester, but I encourage you to do more hours, if your schedule permits.

Objectives:

- UTA students will know how to share literature with children in ways that are authentic and that meet children's interests.
- UTA students will be able to develop literacy lesson plans that foster literacy and language development. You do not need to submit the lesson plan.
- UTA students will design a literacy book club or read-aloud experience that meets the needs of the students and partnering agency.

- UTA students will self-assess their work in the placement, design their own learning goals, and participate in a reflective online discussion about their goals and experiences in the service learning project.

Guidelines:

The first thing to do is choose your project. Sign up for your service learning project **by September 2 or sooner!**

- Do the background check required by the community partner!
- Do any required training needed prior to the placement.
- Keep track of your hours!
- Do not use any names of students in your online reflections!
- You will need about 8-10 hours across the entire semester. If you are doing a 45 minute read-aloud, you can include the prep time to round up to an hour. Every placement is going to vary a bit for the schedule. I encourage you to do beyond the minimum hours if your schedule permits. Please log your time on your own as you will be submitting a self-reported accounting of time spent with your final reflection!
- You should be doing about an hour each week. Feel free to do more than the minimum number of hours, if you wish.
- Begin your placement by September 10, 2018! Contact me if you start a bit later. Placemnets should be mostly done by or before Thanksgiving.

Reflections:

By September 2, upload to Blackboard, your choice of the service project, using the provided template (5 points).

There are **two** main written reflections related to this project These will be posted to the "Groups" area. **Each reflection should be at least 500+ words single-spaced. Follow the guidelines for reflecting posted on Blackboard! A rubric will be provided on Blackboard.**

The last reflection will summarize your overall work and leadership in your community service project.

Reflection	Topic
1: Goals and Getting Ready for the Placement (see syllabus for due date)	Your goals for the community service; describe your placement; describe some of the learning activities you will be doing with students; describe some prior knowledge and resources you will draw on for the placement; identify any challenges you anticipate that the group might help you with.
2. Final reflection and wrap-up reflection	Describe how your placement went overall. Restate your goals from reflection 1 and reflect if you met them. List some successes, lessons learned, challenges, and meaningful moments.

Guided Reading Lesson Plan: Three Parts

The guided reading lesson plan will be done in three parts. You will be working towards completing this plan in parts. Pick your selected text early on in the course.

Guided Reading Lesson Plan

- Post initial thoughts about the guided reading lesson plan (10 points)
- Outline/Draft of Lesson Plan for feedback from Dr. Semingson (15 points)
- Final Lesson Plan (25 points)

Guided reading lesson plans are geared for small groups of readers (3-8 students in a group) where the students are reading at approximately the same reading level. The focus of the guided reading lesson in this class should have a vocabulary and comprehension focus, e.g., a plan appropriate for students who are already reading and working on building fluency while gaining skills in comprehension (that are aligned with the TEKS) as well as vocabulary. The plan should keep in mind you usually only have about 20-25 minutes (at most, typically) to do a guided reading lesson. Often, teachers are expected to also conduct some kind of mini-assessment with students once a week or at least on a regular basis. Time is crucial during guided reading, in particular, so *make every moment count!* ☺

******This is a small group lesson, not a whole group lesson! See the image of an example of a *small-group* guided reading lesson.******

Guided reading is small-group reading instruction, typically done at a small table with 3-8 students.

Image Source: woodleywonderworks Creative Commons licensing <https://www.flickr.com/photos/wwworks/4005631298>

Procedures: Select a guided reading text (fiction or non-fiction) appropriate for 2nd-6thth grade. A template will be provided for this plan and will be made available on Blackboard. The text should ideally be one a student could read in 1-2 guided reading sessions of about **20-30 minutes in length** or a chapter or two from a chapter book. This guided reading plan assumes students are in the fluency-building stage of reading and can already decode. See Blackboard for the required template and the reflection questions for the guided reading lesson plan. **Do not pick a book that is more geared for an emergent or beginning reader.** This lesson should have a vocabulary and comprehension focus. You may use a chapter from *Wonder* by R.J. Palacio or *another book of your choosing that fits the purposes and scope of the assignment*.

***NOTE:** *Include all assessment tools and an anchor chart at the end.* These are the assessments and anchor chart you would actually give a student. Create your own assessment; *do not cut and paste one from the Internet*. Include any pictures of materials you created.

**University of Texas at Arlington
College of Education
Conceptual Framework**

The conceptual framework of the UT Arlington College of Education was developed collaboratively and has evolved over time. Following the identification of a set of core values held by all involved in the preparation of candidates enrolled in the College, members of the University, PK-12 districts, higher education institutions, and area business and foundation communities worked together to develop a shared vision for education.

All activities in the College are guided by the premise that we are Partners for the Future, committed to fostering critical, creative thinkers prepared to engage meaningfully in a dynamic society. This premise is characterized and distinguished by three core values: Professionalism, Knowledge, and Leadership. Research, Diversity, and Technology are themes woven throughout each core value. The College mission, core values, and themes serve as the coherent thread running through all professional programs, guiding the systematic design and delivery of clinical/field experiences, course curricula, assessments, and evaluation. The Conceptual Framework

consists of six interrelated and interacting components, which are viewed as essential contexts for the shaping of informed, skilled, and responsible partners:

- The first core value, **Professionalism**, represents the contention that candidates develop an expertise and specialized knowledge of their field. A high quality of work, standard of professional ethics and behaviors, as well as work morale and motivation are all necessary factors of a developed interest and desire to excel in job performance.
- The second core value, **Knowledge**, represents candidate theoretical or practical understanding of a subject. In today's world, candidate knowledge includes not only academic content mastery, but also skills such as critical thinking, communication, technology literacy, and collaboration, each required for success in college, life, and career.
- The third core value, **Leadership**, represents candidate ability to organize, assist, and support others in the achievement of a common task. Candidates develop and refine their leadership skills within the context of their interactions with PK-20 students, curricula, faculty, and other professionals. The additional three components of the model, Research, Diversity, and Technology, represent themes woven into the core values:
 - **Research** encompasses the investigation of ideas and theories with the purpose of discovering, interpreting, and developing new systems, methods, and support for knowledge, behaviors, and attitudes.
 - **Diversity** is an indispensable component of academic excellence. A commitment to diversity means a dedication to the inclusion, welcome, and support of individuals from all groups, encompassing the various characteristics of persons in our community such as race, ethnicity, national origin, gender, age, socioeconomic background, religion, sexual orientation, and disability.
 - **Technology** is emphasized throughout all programs and is used to support and improve content delivery and student learning.

All components lead to the achievement of one goal—the development of informed and responsible Partners for the Future—who are committed to fostering analytical, innovative thinkers prepared to engage meaningfully in a dynamic society.
