

MATH 5305: Statistical Methods

Fall 2018

Instructor: Dr. Suvra Pal

Office: PKH 442 (Will move to SIER Building)

Telephone: 817-272-3597 (Office)

Email: suvra.pal@uta.edu

Office Hours: Tuesday and Thursday 5:50 pm - 6:50 pm or by appointment

Section Information: MATH 5305-001

Time and Place of Class Meetings: The lectures are on Tuesdays and Thursdays from 7:00 pm to 8:20 pm in PKH (Pickard Hall) 103

Prerequisites

This course will have emphasis on both theory and actual data analysis. Basic knowledge of elementary statistics and level 1 calculus are required to follow the lectures and achieve success. In particular, students should understand univariate integration and differentiation. No prior knowledge of statistical software is required

Description of Course Content

A comprehensive study of basic statistical methods. Topics include descriptive statistics, basic probability, statistical distributions, inference, experiments with one factor, regression analysis, and extensive use of R statistical software

Student Learning Outcomes

The course is oriented toward learning to handle data - from collection to description to formal inference. The students will have a solid understanding of basic statistical methods and the use of R statistical software to solve practical problems. It will provide them a firm foundation for further advanced courses in Statistics

Text book and Software

- A recommended textbook for this course is:

Probability & Statistics for Engineers & Scientists (Ninth Edition). By Walpole, Myers, Myers, and Ye. Publisher: Prentice Hall.

- A recommended textbook for Probability is:

An Introduction to Probability Theory and its Applications (Volume 1). By William Feller. Publisher: John Wiley & Sons.

- We will also learn how to use the R statistical software to solve some problems of our interest. R is an open source statistical programming language which can be downloaded from

<http://www.r-project.org>

Another powerful user interface for R is RStudio, which can be downloaded from

<http://www.rstudio.com>

Note that you must have both R and RStudio downloaded to use RStudio.

Some Useful Links for R materials

- The R manual can be downloaded from <https://cran.r-project.org/doc/manuals/r-release/R-intro.pdf>
- An introduction to R for beginners can be downloaded from https://cran.r-project.org/doc/contrib/Paradis-rdebuts_en.pdf

Descriptions of Major Assignments and Examinations

The different components of the course are 5 - 7 assignments, one mid-term exam (on October 02, 2018), and one final exam. The number of assignments will depend on the pace of lectures. Every assignment will have its own due date and no late assignments will be graded. When solving assignments, students are allowed to discuss with each other, however, the solution should be ones own. No forms of cheating or copying will be accepted (see the section on Academic Integrity). The date for the final exam will be announced at least two weeks ahead and it can be either a take home project or an in class presentation. Details will be announced well in advance.

Attendance

At The University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, I have decided that attendance at class meetings is **not** required but **STRONGLY ENCOURAGED** for better understanding of the subject area. I will be using both the white board and handouts/lecture slides. Only the handouts/lecture slides will be posted online and students are expected to take down notes in class.

Grading

The final mark for this course will be calculated as follows:

Component	Weight
Assignments	50%
Mid-term	20%
Final Exam	30%

Grading Scale

Score	Grade
90%+	A
80% - 89%	B
70% - 79%	C
60% - 69%	D
59% and below	F

Note that the above cutoffs are strict

Expectations for Out-of-Class Study

Beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least an additional nine hours per week of their own time in course-related activities, including reading required materials, solving problems, completing assignments, etc

Grade Grievances

Any appeal of a grade in this course must follow the procedures and deadlines for grade-related grievances as published in the current University Catalog. See <http://catalog.uta.edu/academicregulations/grades/#graduatetext>

Drop Policy

Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://web.uta.edu/aao/fao/>)

Disability Accommodations

UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including The Americans with Disabilities Act (ADA), The Americans with Disabilities Amendments Act (ADAAA), and Section 504 of the Rehabilitation Act. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of disability. Students are responsible for providing the instructor with official notification in the form of a letter certified by the Office for Students with Disabilities (OSD). Students experiencing a range of conditions (Physical, Learning, Chronic Health, Mental Health, and Sensory) that may cause diminished academic performance or other barriers to learning may seek services and/or accommodations by contacting: The Office for Students with Disabilities, (OSD) www.uta.edu/disability or calling 817-272-3364 Counseling and Psychological Services, (CAPS) www.uta.edu/caps/ or calling 817-272-3671

Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364

Non-Discrimination Policy

The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit uta.edu/eos

Title IX

The University of Texas at Arlington is committed to maintaining a learning and working environment that is free from discrimination based on sex in accordance with Title IX of the Higher Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in educational programs or activities; Title VII of the Civil Rights Act of 1964 (Title VII), which prohibits sex discrimination in employment; and the Campus Sexual Violence

Elimination Act (SaVE Act). Sexual misconduct is a form of sex discrimination and will not be tolerated. For information regarding Title IX, visit www.uta.edu/titleIX or contact Ms. Jean Hood, Vice President and Title IX Coordinator at (817) 272-7091 or jmhood@uta.edu

Academic Integrity

Students enrolled at UT Arlington courses are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.

I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

UT Arlington faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System Regents' Rule 50101, Section 2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University. This course includes a zero tolerance policy for academic dishonesty. Students found guilty of cheating will receive a grade of F for the course. "Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts" (Regents Rules and Regulations, Series 50101, Section 2.2)

Electronic Communication

UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>

Campus Carry

Effective August 1, 2016, the Campus Carry law (Senate Bill 11) allows those licensed individuals to carry a concealed handgun in buildings on public university campuses, except in locations the University establishes as prohibited. Under the new law, openly carrying handguns is not allowed on college campuses. For more information, visit <http://www.uta.edu/news/info/campus-carry/>

Student Feedback Survey

At the end of each term, students enrolled in classes categorized as “lecture,” “seminar,” or “laboratory” shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs>

Final Review Week

A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week unless specified in the class syllabus. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate

Emergency Exit Procedures

Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist handicapped individuals

Student Support Services

UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to resources@uta.edu, or view the information at <http://www.uta.edu/universitycollege/resources/index.php>

Course Schedule

Week	Topics Covered
1	Randomness, Basic ideas of probability
2	Random variables
3	Mean and variance, Probability rules, Conditional probability
4	Bayes theorem, Independence of events
5	Different types of variables, Measures of central tendency and spread, Five-number summary and box plots
6	Normal distribution, tests for normality
7	Mid-term exam , Sampling distributions
8	Normal approximation, Continuity correction, Introduction to inference, Confidence intervals
9	Hypothesis testing, p-values, Level of significance
10	Power of a test, t and F distributions, Inference on means
11	Comparing two means, Inference on variance
12	Inference on proportions, Some non-parametric techniques
13	Simple linear regression
14	Experiments with one factor
15,16	Repeated measures design

Note: As the instructor for this course, I reserve the right to adjust this schedule in any way that serves the educational needs of the students enrolled in this course - *Suvra Pal*

Emergency Phone Numbers

In case of an on-campus emergency, call the UT Arlington Police Department at 817-272-3003 (non-campus phone), 2-3003 (campus phone). You may also dial 911. Non-emergency number 817-272-3381. For active shooter/threat resources, see <https://police.uta.edu/activeshooter>.
