Particular emphasis is paid to the emergence of a global civilization and interactions among the world's peoples through mass migration, imperial expansion, trade and cultural exchange.

**CLASS PREREQUISITES:** No special requirements or prerequisites

### **REQUIRED MATERIALS:**

- Marks, *Origins of the Modern World*, 2nd ed.
- Wiesner-Hanks, *Religious Transformations in the Early Modern World*
- Veesper, *Great Leaps Forward: Modernizers in Africa, Asia and Latin America*
- McMahon, *Cold War: A Very Short History*

**CLASS FORMAT:** *This is a 100% online, web-delivered course.* There are many opportunities for students to interact with the instructor and each other through discussions and feedback. While there is great flexibility as to when you complete your work, *this course is not self-paced.* It is imperative that students keep up with the pace of the class. Students will move together through the module and assignments/tests must be done within a window of opportunity. Successful online students are self-starters with good time management skills. This course resides in Blackboard. It is the student's responsibility to log into Blackboard ([www.uta.edu/blackboard](http://www.uta.edu/blackboard)) on the first day of class to access the module.

**STUDENT LEARNING OUTCOMES** (Course Objectives): Upon completion of this course, students will be able to:

- identify key events, peoples, individuals, terms, periodizations and chronology of the history of the world since 1500.
- demonstrate awareness of the basic geography of the world.
- develop analytical skills by scrutinizing primary source documents
- develop critical thinking skills by discussing the living nature of history, critiquing different interpretations of the same events and explaining how the manipulation of the past can provide insights into later periods.
- synthesize diverse historical information on broad themes of world history since 1500 and present this information in coherent, well-articulated and well-substantiated discussions, essays and other written work

## **ASSIGNMENTS, ASSESSMENTS AND GRADING**

Your grade for this course will be based upon 500 quality points. 30% of your semester grade is based upon testing; 30% upon projects; and 40% upon Reflection and Reaction assignments.

**Grade Scale:** A = 500-450; B = 449-400; C = 399-350; D = 349-300; F = 299 and below

**NOTE:** Students have one week from the posting of an assignment/exam/discussion grade (which will be announced via a class announcement) to challenge the grade or bring up any concerns. All grades are considered final after this period passes and will not be revisited. There will be a shorter protest/review period (notification by class announcement) for items due the last week of class.

**Unit Quizzes:** There are 3 quizzes (short answer, fill-in-the-blanks, and multiple choice questions), one for each unit in the course. Quizzes cover assigned readings and other course materials and are meant to help assess how well you are learning the course content materials, or the basic “facts.” All quizzes are open book and are timed. Worth up to 50 points each.

**Geography Project:** There is one geography project where students will choose a topic which utilizes geography as one point of reasoning. Assignment includes an essay, images of the geographic location and the creation of a map. You will have several weeks to work on this project. Worth up to 55 points.

**Document Project:** There is one document project where students will learn how to analyze primary documents. Then students will choose a topic and corresponding primary documents and create a Powerpoint lecture based upon this topic. You will have several weeks to work on this project. Worth up to 55 points.

**Comprehensive Essay:** There is one 3-4 page analytical essay in this class based upon a broad topic assigned by the instructor. You will have several weeks to work on this project. Worth up to 40 points.

**Reflection and Reaction:** There are 8 Reflection and Reaction (RR) exercises. Each exercise is worth up to 25 points each. In each RR, students will be assigned a topic/materials to review (these materials will have been previously assigned within the course module), they will then take a multiple choice readiness assessment over these materials, complete a one paragraph journal entry, engage in a discussion of different historical scenarios over the information with other students, and then reflect upon the conclusions they have reached. Complete step-by-step instructions will be included in the course module. Students will be assigned to a learning community to facilitate discussions before the first RR..

**Full information on each of these assignments is available in the course module.**

**Calculating Your Grade:** I will not calculate interim class grades for students. To determine where you stand in the class at any given time use the following calculation: Divide the number of quality points you have earned by the total number of quality points available to that point and multiply by 100% to get your interim percentage semester grade. Final grades in this course are

awarded upon simple addition of earned quality points according to the aforementioned scale. Note that the "points to date" information in Blackboard grades is not correct because of the way Bb factors in discussion grades.

**CLASS OUTLINE AND READING ASSIGNMENTS:** - Can be found in the online Course Module.

**GROUPS:** - Students will be assigned to a learning community (group) the first week of class.

**CLASS CALENDAR:** Can be found in the online Course Module
