Instructor: Dr. Mark Ricard  
Office: MAC 230  
E-Mail: ricard@uta.edu  
Office Phone: (817) 272-0764  
Lab Phone: (817) 272-9185  

Faculty Profile: https://www.uta.edu/mentis/profile/?445

Office Hours: By appointment

Location & Time: Fine Arts (FA) room 412, Wednesday, 5:00 PM – 7:50 PM.

Course Description: KINE 5305 Applied Statistical Principles in Kinesiology (3-0) The course covers descriptive statistics, t-tests, ANOVA, repeated measures ANOVA, ANCOVA, correlation, intraclass correlation, multiple regression, log-linear regression and non-parametric statistics.

Student Learning Outcomes:
Upon successful course completion, students will demonstrate:
1. Their knowledge of the assumptions, violations and implementation of the following statistical procedures: correlation, t-test, ANOVA, ANCOVA, linear regression, multiple regression and intraclass correlation.
2. Their ability to interpret a research design, choose and run the appropriate statistical procedure, synthesize the statistical output and write a results section of a manuscript based upon the statistical output.

Grading
As a policy of the University of Texas at Arlington (UTA) outlined in the official Graduate Catalog, graduate credit will be given for grades of A, B, or C (as well as P) for work done at UTA, subject to the following conditions:
1. The student must maintain a B average in all work done in the major.
2. The student must maintain a B average in all work done in the minor.
3. The student must maintain a B average in all advanced work.

Grades in this course will be based on the following percentages:

Exams (2): 90%  
Assignments: 10%

Attendance Policy: Attendance is required.

Expectations for Out-of-Class Study: Beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least an additional 9 hours per week of their own time in course-related activities, including reading required materials, completing assignments, preparing for exams, etc.

Make-up Exams: If you miss an exam due to illness or a planned trip it is your responsibility to arrange a make-up exam.
Grade Grievances: Any appeal of a grade in this course must follow the procedures and deadlines for grade-related grievances as published in the current graduate catalog. For graduate courses, see http://grad.pci.uta.edu/about/catalog/current/general/regulations/#grievances.

</table>
| Week 1 | 8-28      | Chapter 1: Why learn statistics  
Chapter 2: Statistical modeling  
Chapter 3: The SPSS environment  
Chapter 5: Exploring assumptions |
| Week 2 | 9-4       | Chapter 6: Correlation  
Chapter 15: Spearman and Kendall’s Tau (non-parametric)  
Chapter 7: Regression |
| Week 3 | 9-11      | Chapter 7: Non-Linear Regression  
Chapter 9: Comparing two means  
Chapter 15: Wilcoxon and Mann-Whitney U (non-parametric) |
| Week 4 | 9-18      | Chapter 10: Comparing several means: ANOVA (GLM 1)  
Chapter 15: Kruskal-Wallis |
| Week 5 | 9-25      | Chapter 8: Logistic Regression  
Chapter 14: Mixed design ANOVA (GLM 5) |
| Week 6 | 10-2      | Review for Mid Term Exam |
| Week 7 | 10-9      | **Mid Term Exam** |
| Week 8 | 10-16     | Chapter 11: Analysis of covariance, ANCOVA (GLM 2)  
Chapter 12: Factorial ANOVA (GLM 3) |
| Week 9 | 10-23     | Chapter 13: Repeated Measures ANOVA (GLM 4)  
Chapter 15: Friedman (non-parametric) |
| Week 10| 10-30     | Chapter 15: Friedman (non-parametric) |
| Week 11| 11-6      | Chapter 16: Mixed design ANOVA (GLM 5)  
Chapter 19: Linear mixed models  
Modeling underlying variance – covariance structures |
| Week 12| 11-13     | Chapter 19: Linear mixed models  
Modeling underlying variance – covariance structures |
| Week 13| 11-20     | Chapter 19: Linear mixed models  
Modeling underlying variance – covariance structures |
| Week 14| 11-27     | Chapter 19: Linear mixed models  
Modeling underlying variance – covariance structures |
| Week 15| 12-4      | Review for Final Exam |
| Week 15| 12-6      | **Final Exam** |

**Drop Policy:** Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student’s responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (http://wweb.uta.edu/aao/fao/).

**Americans with Disabilities Act:** The University of Texas at Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including the Americans with Disabilities Act (ADA). All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of that disability. Any student requiring an accommodation for this course must provide the instructor with official documentation in the form of a letter certified by the staff in the Office for Students with Disabilities, University Hall 102. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.
**Academic Integrity:** Students enrolled in this course are expected to adhere to the UT Arlington Honor Code:

*I pledge, on my honor, to uphold UT Arlington’s tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.*

*I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.*

UT Arlington faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System Regents’ Rule 50101, §2.2, suspected violations of university’s standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student’s suspension or expulsion from the University.

**Student Support Services:** UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to resources@uta.edu, or view the information at www.uta.edu/resources.

**Electronic Communication:** UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at http://www.uta.edu/oit/cs/email/mavmail.php.

**Student Feedback Survey:** At the end of each term, students enrolled in classes categorized as “lecture,” “seminar,” or “laboratory” shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit http://www.uta.edu/sfs.

**Final Review Week:** A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week unless specified in the class syllabus. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

**Emergency Exit Procedures:** Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit, which is located on each side of FA 412. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist handicapped individuals.
