

---

**NURS 5360: Simulation Application in Nursing**

May 2014  
3 semester hours

**Instructor:** Mindi Anderson, PhD, RN, CPNP-PC, CHSE-A, CNE, ANEF

**Office Number:** Pickard Hall, Office Number 624

**Office Telephone Number:** 817-272-2776, ext. 0469

**Email Address:** manderso@uta.edu

**Faculty Profile:** <https://www.uta.edu/mentis/profile/?1617>

**Office Hours:** Virtual Office Hours, Sundays 7-8 p.m. (Central Standard Time) and by appointment

**Instructor:** Paul St. Laurent, DNP, APRN, ACNP-BC, CCRN-CMC

**Office Number:** Pickard Hall, Office Number 616

**Office Telephone Number:** 817-272-5781

**Email Address:** paulstl@uta.edu

**Faculty Profile:** <https://www.uta.edu/mentis/public/#profile/profile/view/id/12631>

**Office Hours:** Virtual Office Hours, Sundays 7-8 p.m. (Central Standard Time) and by appointment

**Guest Lecturer:** Kristina Stillsmoking, PhD, M.Ed., BSN, CNOR, CHSE

**Section Information:** NURS 5360-400 (NURS 5360-450 clinical/lab)

**Time and Place of Class Meetings:**

- This class is held in an on-line environment via Blackboard. While most class participation is asynchronous, one synchronous on-line activity is required (see below).
- Students will need to attend one on-line web-conference meeting around Week Three of the course. Students must choose from (1) Sunday, June 1, 2014 from 7 to 8 p.m. (Central Standard Time), (2) Monday, June 2, 2014 from 11 a.m. to 12 p.m. (Central Standard Time), or (3) Monday, June 2, 2014 from 7 to 8 p.m. (Central Standard Time).

**Description of Course Content:**

Application of simulation in healthcare.

**Student Learning Outcomes:**

1. Contrast the advantages and disadvantages of selected types of simulation.
2. Use an educational theory to design a simulation experience for health care including nursing.
3. Design a simulation experience including nursing based on learning objectives and evidence-based practice.
4. Conduct a simulation experience.

5. Evaluate a simulation experience.
6. Critique a simulation evaluation tool.

**Requirements:**

Course Prerequisites: Graduate Standing

For this course, 45 clinical (lab) hours are required.

For this course, you must also have: 1) Internet access; 2) NetID & password (given to you by UT Arlington)

**Required Textbooks and Other Course Materials:**

\* Buy most recent editions of books

1. Jeffries, P.R. (Ed.). (2012). *Simulation in nursing education: From conceptualization to evaluation* (2<sup>nd</sup> ed.). New York, NY: National League for Nursing. **ISBN:** 978-1-934758-15-1

**Recommended Textbooks:**

1. American Psychological Association. (2010). *Publication manual of the American Psychological Association* (6<sup>th</sup> ed.). Washington, D.C.: American Psychological Association. **ISBN:** 978-1433805615

Other reading assignments are required, some of which can be obtained through Course Reserves via the UT Arlington Library. Course Reserves can be found at <http://pulse.uta.edu/vwebv/enterCourseReserve.do>. Reading assignments are listed by the week, found on Blackboard.

**Tentative Course Topics:**

Types of Simulation  
Theories Applicable  
Designing Simulations  
Implementing Simulations  
Debriefing  
Fidelity  
Integration  
Evaluating Scenarios/Tools  
Interprofessional Education and Simulation  
In Situ Simulation  
Simulation and Research

**Descriptions of Major Assignments and Examinations with Due Dates:****Discussion Boards (Initial Posts and Peer Responses) (35%: Due Weekly)**

You must respond to each discussion question(s) posted each week. Some weeks will have one discussion board to answer; some will have more than one discussion board to answer. Your discussion board initial posts will be due each week on Friday at 11:59 p.m. (Central Standard Time).

You must respond to at least one peer for **each** discussion board post (some weeks, there will be one discussion board; some weeks, there will be two). Peer responses will be due each week on Sunday at 11:59 p.m. (Central Standard Time). Late discussion board initial posts and late peer responses will not be accepted.

The grading rubric and further instructions will be posted on Blackboard. Please make sure to read the rubric prior to posting/responding. The grade for the Discussion Boards is a combination of the initial posts and peer responses.

**Attendance and Participation in a Web-conference (5%: Either 6/01/14 or 6/02/14)**

You will participate in an on-line web-conference on 1) Sunday, June 1, 2014 from 7 to 8 p.m., (2) Monday June 2, 2014 from 11 a.m. to 12 p.m. (Central Standard Time), or (3) Monday, June 2, 2014

from 7 to 8 p.m. (Central Standard Time). During this activity, you will participate in a discussion with your instructor(s) and peers regarding a video that must be viewed prior to the web-conference. You will receive a grade from attending and participating in the web-conference. The grading rubric will be posted on Blackboard.

**Evaluation of Team's Simulation Experience (20%: Due 06/13/14)**

You will be required to evaluate a team's simulation experience from a video. This will include several rubrics/tools that will be completed like you are the "instructor." In addition, you must prepare a PowerPoint presentation justifying your grading. This will be an individual project. Feedback given should be constructive. The grading rubric will be posted on Blackboard.

**Design of a Simulation Experience Including Nursing (30%: Due 06/20/14)**

For this group project, you will pair with one-two students (groups of two-three) enrolled in the course and design a simulation experience including nursing, either students or practicing nurses. Other health care providers may be included, but are not required. The population and/or area of choice (i.e. pediatrics, obstetrics, medical-surgical) are yours. You may also choose the type of simulation/simulator: mannequin-based (static, low-fidelity, or high-fidelity), hybrid, standardized patient, etc. Keep in mind that your simulation experience should be based on written learning objectives and evidence-based practice. Additionally, the technology (type of simulation/simulator) should match the learning objectives of the simulation experience.

If you choose to design a simulation experience for nursing students, it is required that you contact the lead teacher or a team member from the course you choose and have the instructor verify your objectives. The instructor can sign your log sheet (this can be done via scanning), or you can get an email confirmation from the person's work email account. If you choose to design a simulation experience for practicing nurses, it is required that you contact an educator from the proposed area and have the educator verify your objectives. You can have the educator sign your log sheet (this can be done via scanning) or you can get an email confirmation from the person's work email account.

You will also turn in a paper including information about the: objectives, fidelity, evidence-based practice used to design the simulation experience, educational theory used to design the experience, problem-solving and support in the simulation, completed simulation design tool, and debriefing questions. The grading rubric and further instructions will be posted on Blackboard.

For this project, it is expected that you work together as a group and that everyone participate equally. It is required that you work on your simulation experience every week, and that each individual group member posts updates **EACH** week regarding their contributions to the group project (see more information following). Feedback from your instructor(s)/academic coach will be provided within your group's discussion board. It is also expected that communication between peers, academic coaches, and instructor(s) remain professional. The instructor(s) and academic coach will be monitoring each group's discussion board. It is suggested that you complete your simulation/paper at one week prior to the due date to allow time for final proofing and submission.

***\*Faculty retains the right to adjust an individual student grade within the group depending on participation, performance, and behavior in the group process.***

**Design of a Simulation Experience Including Nursing Post in Group Discussion Board (5%: Due Weekly)**

Each week, you must work on your *Design of a Simulation Experience Including Nursing* project and post what you are working on in your group discussion board. Your post will be due each week on Sunday at 11:59 p.m. (Central Standard Time). Late posts will not be accepted. The grading rubric and further instructions will be posted on Blackboard.

**Lab Log (5%: Due Weekly: Final Due 06/20/14)**

For this course, 45 clinical (lab) hours are required. You must keep a log of these hours weekly (submitted) and turn the final version in at the end of the course (including Weeks 1-5). The weekly lab  
Spring 2014 Course Syllabi

log is due by Sundays at 11:59 p.m. (Central Standard Time). The final lab log should be corrected to include only those hours deemed as acceptable lab hours per the instructor(s). Hours that may be counted as lab hours include: meetings with team members (including on the phone, via web-conferencing, etc.), observing simulation experiences (see more information following), meeting with lead teachers/team members/educators, and working on the simulation experience. If you meet in person, times meeting with the lead teacher/team member/educator must be initialed on the log by the lead teacher/team member/educator. If you converse via email, the email communication should be kept as receipt using the person's work email account. Please let the instructor/educator know that their email will be shared with the instructor(s).

Each student **must** turn in a lab log, and each student **must** turn in proof the simulation objectives have been reviewed by an educator/instructor. Forms and the grading rubric for the log will be posted on Blackboard.

***Note: If you choose to observe simulation experiences or meet in person with lead teachers/team members/educators, the instructor(s) must approve these first. Failure to get prior approval may result in these hours not counting as lab hours.***

If you are meeting with team members, all team members involved should have the meeting times listed on their own lab log. A list of additional optional activities that count as lab hours can be found on Blackboard. Other activities not listed may also be counted as lab activities, as approved by the instructor. ***Note: Failure to get prior approval may result in these hours not counting as lab hours.***

***Late lab logs will not be accepted. Clinical "lab" must be passed in order to pass the whole course. Please see grading for more information about what counts as clinical "lab."***

### **SafeAssignment (SafeAssign)**

In this course, you will upload some of your papers/assignments into SafeAssign prior to grading. Please read the Student Resources section on Blackboard for more information about the tool, which is used to check for plagiarism. For these papers/assignments, you will have the option of turning in a Draft copy in the SafeAssign drop box, labeled as such. See further details below.

1. **DRAFT** (optional): This SafeAssign location is not graded and will be open until the final submission due date and time. You may use this to check your assignment and edit prior to turning in to the final drop box. When you upload, please check the "submit as draft" option. Please note that it may take some time to get your results, so if you use this feature, plan on giving yourself several days to do this. For questions regarding percentage of matching, please contact your instructor(s).
2. **FINAL**: This SafeAssign location is separate and is the only one that will be graded. Only one document can be uploaded per SafeAssign.

### **Work:**

Students are expected to complete all assignments and provide to faculty by the scheduled due date/time. Late papers are not acceptable and may receive a grade of zero. At the least, **5 points may be deducted per day late, unless otherwise specified on assignment/rubric.**

Assignments may no longer be accepted 5 days following the original due date. Some assignments in this course, including discussion boards and lab logs, will not be accepted if they are late.

### **Attendance:**

This course meets on-line. Students must attend one web-conference meeting on-line around Week Three of the course.

### **Other Requirements:**

Please see the major assignments and examinations; including the required 45 lab hours.

**Methods/Strategies:**

The faculty and students will collaborate for structured exploration of simulation topics on-line and through required assignments. Teaching methods will include lectures (audio and audio-video), reading assignments, additional media, written assignments, games, web-conferencing, and other learning strategies.

**Grading:**

Due Date	Assignment (Individual vs. Team/Group)	% of Course Grade
Weekly by Fridays at 11:59 p.m. (Central Standard Time)	Discussion Board Initial Posts (Individual)	35% (combination of initial posts and peer responses)
Weekly by Sundays at 11:59 p.m. (Central Standard Time)	Discussion Board Peer Responses (Individual)	*Counted as didactic grade
06-01-14 or 6-02-14 (Central Standard Time) *See previous for times	Attendance and Participation in a Web-conference (Individual)	5% *Counted as clinical/lab grade
06-13-14 by 11:59 p.m. (Central Standard Time)	Evaluation of a Team's Simulation Experience (Individual)	20% *Counted as didactic grade
06-20-14 by 11:59 p.m. (Central Standard Time)	Design of a Simulation Experience Including Nursing (Team of two-three)	30% *Counted as clinical/lab grade
Weekly by Sundays at 11:50 p.m. (Central Standard Time)	Design of a Simulation Experience Including Nursing Post in Group Discussion Board (Individual)	5% *Counted as clinical/lab grade
Weekly by Sundays at 11:59 p.m. (Central Standard Time)  Final log due 06-20-14 by 11:59 p.m. (Central Standard Time)	Lab Log (Individual)	5% (Weekly)  <b>Must complete at least 45 hours</b> *Counted as clinical/lab grade
<b>Total</b>		100%

***\*Both the didactic and clinical "lab" must be passed in order to pass the whole course. Both are combined into one course grade.***

**Grading Policy****A = 92-100****B = 83-91****C= 74-82****D=68-73****F=<68**

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels.

**Electronics Devices:**

Any use of electronic devices must be approved prior to use by the instructor, including but not limited to tape recorders, cell phones, cameras and/or videotaping equipment.

**Logistics:**

For any errors in the syllabus or on Blackboard, please email the instructor.

**Grade Grievances:** Any appeal of a grade in this course must follow the procedures and deadlines for grade-related grievances as published in the current graduate catalog.

### Attendance & Drop Policy

- Accessing all lecture materials, and regular participation in discussion boards is expected of all students. Participation in both will be reflected in the course grade.
- Students are responsible for all missed course information.

Graduate students who wish to change a schedule by either dropping or adding a course must first notify their academic advisor and consult with their respective program director, Director of the MSN Graduate Program. For Education students, this is Marie Lindley at [mlindley@uta.edu](mailto:mlindley@uta.edu) and for Administration students; this is Dr. Cynthia Plonien, [Plonien@uta.edu](mailto:Plonien@uta.edu)

**Last day to drop or withdraw – June 9, 2014**

**Americans with Disabilities Act:** The University of Texas at Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including the *Americans with Disabilities Act (ADA)*. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of that disability. Any student requiring an accommodation for this course must provide the instructor with official documentation in the form of a letter certified by the staff in the Office for Students with Disabilities, University Hall 102. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at [www.uta.edu/disability](http://www.uta.edu/disability) or by calling the Office for Students with Disabilities at (817) 272-3364.

**Academic Integrity:** Students enrolled in this course are expected to adhere to the UT Arlington Honor Code:

*I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.*

*I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.*

UT Arlington faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University.

**Plagiarism:** Copying another student's paper or any portion of it is plagiarism. Copying a portion of published material (e.g., books or journals) without adequately documenting the source is plagiarism. Consistent with APA format, if five or more words in sequence are taken from a source, those words must be placed in quotes and the source referenced with author's name, date of publication, and page number of publication. If the author's ideas are rephrased, by transposing words or expressing the same idea using different words, the idea must be attributed to the author by proper referencing giving the author's name and date of publication. If a single author's ideas are discussed in more than one paragraph, the author must be referenced, according to APA format. Authors whose words or ideas have been used in the preparation of a paper must be listed in the references cited at the end of the paper. Students are expected to review the plagiarism module from the UT Arlington Central Library via <http://library.uta.edu/tutorials/Plagiarism>

**Student Support Services:** UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. These resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to [resources@uta.edu](mailto:resources@uta.edu), or view the information at [www.uta.edu/resources](http://www.uta.edu/resources).

**Electronic Communication:** UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding, financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using the account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail/php>.

To obtain your NetID or for logon assistance, visit <https://webapps.uta.edu/oit/selfservice/>. If you are unable to resolve your issue from the Self-Service website, contact the Helpdesk at [helpdesk@uta.edu](mailto:helpdesk@uta.edu).

**Student Feedback Survey:** At the end of each term, students enrolled in classes categorized as “lecture,” “seminar,” or “laboratory” shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback data is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs/>.

**Final Review Week:** A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

The following URL houses a page where we have gathered many commonly used resources needed by students in online courses: <http://www.uta.edu/library/services/distance.php>

### **College of Nursing additional information:**

**Status of RN Licensure:** All graduate nursing students must have an unencumbered license as designated by the Texas Board of Nursing (BON) to participate in graduate clinical nursing courses. It is also imperative that any student whose license becomes encumbered by the BON must immediately notify their Associate Dean for the MSN Program, Department of Advanced Practice Dr. Gray/Dr. Schira. The complete policy about encumbered licenses is available online at: [www.bon.state.tx.us](http://www.bon.state.tx.us)

### **Confidentiality Agreement**

You signed a Confidentiality Form in orientation and were provided a copy of the form. Please take your copy of this Confidentiality Form with you to your clinical sites. Please do not sign other agency confidentiality forms. Contact your faculty if the agency requires you to sign their confidentiality form.

**Student Code of Ethics:** The University of Texas at Arlington College of nursing supports the Student Code of Ethics Policy. Students are responsible for knowing and complying with the Code. The Code can be found in the student handbook online: <http://www.uta.edu/nursing/handbook/toc.php>

**No Gift Policy:** In accordance with Regent Rules and Regulations and the UTA Standards of Conduct, the College of Nursing has a “no gift” policy. A donation to one of the UTA College of Nursing Scholarship Funds, found at the following link: [http://www.uta.edu/nursing/scholarship\\_list.php](http://www.uta.edu/nursing/scholarship_list.php) would be an appropriate way to recognize a faculty member’s contribution to your learning. For information regarding Scholarship Funds, please contact the Dean’s office.

### **Course Evaluation:**

Course evaluation is a continuous process and is the responsibility of both the faculty and the students. Ongoing feedback (formative evaluation) is the only way to improve the course and to assure that it meets your needs and those of the discipline of nursing. It is your responsibility to give immediate, constructive feedback regarding class structure and process.

Formal evaluation of the course and the instructor occurs at the end of the course. You will receive instructions at your University of Texas at Arlington e-mail address about how to complete the course evaluations online. Your ratings and comments are sent to a computer not connected to the College of Nursing, and faculty members do not receive the results until after they have turned in course grades.

**Online Conduct:** The discussion board should be viewed as a public and professional forum for

course-related discussions. Students are free to discuss academic matters and consult one another regarding academic resources. The tone of postings should be professional in nature. It is not appropriate to post statements of a personal or political nature, or statements criticizing classmates or faculty. Inappropriate statements/language will be deleted by the course faculty and may result in denied access to the Discussion boards. Refer to UTACON Student Handbook for more information.

***For this course Blackboard communication tools, discussion boards, and UTA MAV email will be used extensively and should be checked often.***
