Instructor: Dr. Yonghe Liu

- Email: Yonghe@cse.uta.edu
- Office: ERB 537 (817-2727606)
- Website: http://ranger.uta.edu/~yonghe/cse5345

Prerequisite: cse5344 (Computer Network Organization).

Logistics:

- Class schedule: TTH 12:30pm-1:50pm, SH 129
- Office hours: TTH 10:00am-11:00am
- Teaching assistant: Yanliang Liu Office hour: TBA
- Textbooks: Wireless Communications & Networks by William Stallings. Amazon
- Reference books:
  - Wireless Communications: Principles and Practice by Theodore S. Rappaport Amazon
  - Wi-Fi (802.11) Network Handbook by by Neil P. Reid and Ron Seide Amazon

Objective: Wireless networks are untethering every bit of our life, mostly centered on smart devices deeply penetrating into our daily lives. This course aims at providing the students with a SYSTEMATIC knowledge of wireless networks, including physical layer techniques (signal propagation, coding, modulation, error control), link layer, network layer, transport layer, and applications. We will cover recent wireless technologies including 4G/5G cellular networks, NFC, BLE, UWB technologies.

Course Content: The course will cover all the content in the text book with additional components/handouts for enhancements.

Grading policy: There will be mid-term exam but no final. There will also be 3 quizzes during the semester, which will be announced at least one week ahead (NOT popup).

- Quiz: 30%
- Exams: 30%
- Programming and Lab: 40% (Lab 1 5%, Lab 2 5%, Project 30%)

Projects and Programming: Projects in this course will be performed in two environments: simulation based projects over OPNET (c/c++ based) and real system programming over wireless devices. This semester, we will be using bluetooth low energy based devices such as iBeacon devices together with smartphones for our real system programming project.

Attendance: Students are expected to attend all lectures.

Quiz and Exam Makeup: There will be no exam or quiz makeup. Missed exam/quiz will result in zero mark.

Drop Policy: Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through
a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. Students will not be automatically dropped for non-attendance. Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (http://wweb.uta.edu/aao/fao/).

Americans with Disabilities Act: The University of Texas at Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including the Americans with Disabilities Act (ADA). All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of that disability. Any student requiring an accommodation for this course must provide the instructor with official documentation in the form of a letter certified by the staff in the Office for Students with Disabilities, University Hall 102. Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.

Academic Integrity: Students enrolled in this course are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence. I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

UT Arlington faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System Regents' Rule 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University.

Student Support Services: UT Arlington provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include tutoring, major-based learning centers, developmental education, advising and mentoring, personal counseling, and federally funded programs. For individualized referrals, students may visit the reception desk at University College (Ransom Hall), call the Maverick Resource Hotline at 817-272-6107, send a message to resources@uta.edu, or view the information at www.uta.edu/resources.

Electronic Communication: UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at http://www.uta.edu/oit/cs/email/mavmail.php.

Student Feedback Survey: At the end of each term, students enrolled in classes categorized as "lecture," "seminar," or "laboratory" shall be directed to complete an online Student Feedback Survey (SFS).
Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit http://www.uta.edu/sfs.

**Final Review Week:** A period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week unless specified in the class syllabus. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

**Emergency Exit Procedures:** Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit, which is illustrated by the emergency exit route. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist handicapped individuals.

**Course Schedule:**

- Week 1: Logistics
- Week 1-4: Wireless Physical Layer, Quiz 1
- Week 5-8: Wireless LAN, Quiz 2, Project 1 and 2
- Week 9-12: Advanced Wireless Technologies (cellular, NFC, BLE, UWB, IoT), Quiz 3
- Week 13-15: Projects
- Week 16: Review
- Week of Final Exam

As the instructor for this course, I reserve the right to adjust this schedule in any way that serves the educational needs of the students enrolled in this course.
