Discussion boards are used to collectively explore topics/case studies/situations outlined in weekly course content. The Participation Grade consists of the orientation quiz, self-evaluation, all progress monitors, weekly discussion boards and self-assessments. All are expected to be completed. If any are not completed then a grade of "0" will be entered for that activity and will be calculated into the overall **Participation Grade which is 25% of the overall grade and will be factored in at the end of the course.** 

<u>Progress Monitors</u> are part of your Participation Grade. Most Modules have a Readings and a Video Progress Monitor. They are located in both the Readings and Videos sections. They are questions that test your comprehension and understanding of course content. They are factored into the overall Participation Grade (so will not reflect in the overall cumulative grade until the course ends), and you are expected to complete them. **Participation Grade** comprises 25% of the final grade.

#### **Discussion Board Entries** are a vital part of this online course.

- 5. All discussion board entries are graded and calculated into the overall Participation Grade which comprises 25% of the final grade. If parts of the requirements of discussion board entries are omitted, then (as shown on the rubric) then a grade of "0" will be entered into that portion of the rubric and calculated into the final grade.
