Attendance and Participation Policy:

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As the instructor of this section, I will take attendance for each live session conducted per the schedule. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via *Blackboard*. This date is reported to the Department of Education for federal financial aid recipients.

- **Participation** is expected of all students whether the class is held in an online asynchronous or virtual environment via a synchronous (real-time) method.
- **Students are responsible for all missed course information.**
- **No makeup opportunity for missed class sessions is provided.**

Time Management

Time management in this course is critical. There is a **11-point deduction** for assignments turned in after the due date/time **up to 5-hours late**. **If an assignment is late, 5-hours or more, a grade of zero (0)** will be given for that activity. Extensions of time are granted at the discretion of the instructor and must be negotiated in **advance** of the due date/time.

Course Prerequisites & Requirements

The student must:

- Complete the N5327 Exploration of Science and Theories for Nursing and N5366 Principles of Research in Nursing.
- Have basic *Microsoft Office* software skills such as *Word*, *Excel*, and *PowerPoint*, video recording for posting to *YouTube* as well as computer, email, and Internet skills.
- *Mozilla Firefox* is the browser recommended for use with *Blackboard (Bb)* however, others may work such as *Google Chrome*. *Internet Explorer* has been known to be less consistent and therefore, may wish to avoid the use of it. If a problem arises, try switching browser systems to test the issue before contacting the helpdesk or faculty.
- As this course is offered in a blended (online and face-to-face) format, **each student must have a computer with a high speed Internet connection**. The computer should meet UTA's hardware recommendations: <http://www.uta.edu/oit/cs/hardware/student-laptop-recommend.php> and Blackboard's browser requirements: <http://www.uta.edu/blackboard/browertest/browertest.php>

This course requires the use of word processing and presentation software that is compatible with Microsoft Office formats. Students may purchase this software (in person or by mail) at a significant discount from the UTA bookstore <http://www.uta.edu/bookstore> (scroll to the bottom of the webpage). Students are **required to have a headset (with microphone) and webcam** to participate in web conferences and to test online. Testing will be done online using Respondus browser and monitor (which students must download from a link within Blackboard and install on their computer). The instructor will determine what option is offered to students who are unsuccessful in completing a test online. Students may be required to complete an alternate version of the test using ProctorU for which students must pay a fee.

Note: Papers are graded using the *Track Changes* and *Comments* features in Microsoft Word

3. EBP Clinical Practice Guidelines
4. Developing Clinical Questions
5. Gathering Research Evidence
6. Appraising Research Studies
7. Appraising Clinical Guidelines and Systematic Reviews

Grading and Evaluation

Students are expected to keep track of their performance throughout the course and seek guidance from available sources (including the coach and instructor) if performance drops below satisfactory levels.

A = 90-100	B = 80-89	C = 70-79
D=60-69 (<i>cannot progress</i>)	F=<60 (<i>cannot progress</i>)	

Grades are extended to two decimals without rounding for the final grade. For example, a final course score of 89.99 is a B in the course.

Discussions, Assignments, and Projects are the major part of the course work and should receive appropriate attention. All material submitted for grading must meet the standards of graduate level work (content and format). All assignments are to be submitted electronically via Blackboard unless otherwise specified by the faculty. **UTACONHI Title page** for each assignment is required unless otherwise specified. (See *Blackboard* for template).

For any reason course work requiring resubmission will be dropped up to one letter grade at the discretion of the clinical faculty and only a maximum of a B or 89% percent can be achieved on any work resubmitted.

Turn in only one copy of your work; all assignments are the property of the University. Students should make a copy of their work prior to submission. Assignments and Activities detail are located in *Blackboard*.

Grades of incomplete are NOT automatically given when there are missing assignments at the end of the course. A student must discuss, with the faculty of record for the course, the reasons that an incomplete grade is being requested. This discussion must occur as soon as the student recognizes that a problem exists. Faculty members are not obligated to grant the use of an incomplete grade. With no prior discussion of the need for an incomplete, students not completing the required activities will receive the grade for the course based on the percentage of the required material submitted.

MSN Program Expectations:

GPA of 3.0: Students must maintain a GPA of 3.0. Please seek help immediately if you are at risk of dipping below this GPA. Ready to assist you are:

- your course professor
- UTA Student Success Coordinators

- Your advisor
- Your retention specialist

Course Expectations

The amount of time required by students to study and complete assignments in this course will vary according to students' previous professional experiences, prior learning, and, the pace at which one works. While having completed multiple years of practice generally provides students an advantage, these same students sometimes find themselves having to "unlearn" practices that are not supported by the most recent evidence or research. Students with fewer years of nursing experience will generally find themselves working more diligently to quickly increase their overall knowledge base, knowledge that their classmates may have developed over multiple years of working in healthcare settings.

It is recommended that students schedule a minimum of 9-12 hours per week on their own time in course related activities to study and complete their content in this didactic (non-clinical) course, however, some weeks may require fewer hours and other weeks may require more hours.

Drop Policy:

Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/aao/fao/>).

Last Date to Drop or Withdraw: November 2, 2016 by 16:00

Americans with Disabilities Act:

UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including *The Americans with Disabilities Act (ADA)*, *The Americans with Disabilities Amendments Act (ADAAA)*, and *Section 504 of the Rehabilitation Act*. All instructors at UT Arlington are required by law to provide "reasonable accommodations" to students with disabilities, so as not to discriminate on the basis of disability. Students are responsible for providing the instructor with official notification in the form of a **letter certified** by the Office for Students with Disabilities (OSD). Only those students who have officially documented a need for an accommodation will have their request honored. Students experiencing a range of conditions (Physical, Learning, Chronic Health, Mental Health, and Sensory) that may cause diminished academic performance or other barriers to learning may seek services and/or accommodations by contacting:

The Office for Students with Disabilities, (OSD) www.uta.edu/disability or calling 817-272-3364.

Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability.

Counseling and Psychological Services, (CAPS) www.uta.edu/caps/ or calling 817-272-3671 is also available to all students to help increase their understanding of personal issues, address mental and behavioral health problems and make positive changes in their lives.

Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities at (817) 272-3364.

Non-Discrimination Policy: *The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. Sexual misconduct is a form of sex discrimination and will not be tolerated. *For information regarding Title IX, visit www.uta.edu/titleIX or contact Ms. Jean Hood, Vice President and Title IX Coordinator at (817) 272-7091 or jmhood@uta.edu.*

Academic Integrity

Students enrolled all UT Arlington courses are expected to adhere to the UT Arlington Honor Code:

I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.

I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.

UT Arlington faculty members may employ the Honor Code in their courses by having students acknowledge the honor code as part of an examination or requiring students to incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with University policy, which may result in the student's suspension or expulsion from the University. Additional information is available at <https://www.uta.edu/conduct/>.

Plagiarism

Copying another student's paper or any portion of it is plagiarism. Additionally, copying a portion of published material (e.g., books or journals) without adequately documenting the source is plagiarism. **If five or more words in sequence are taken from a source, those words must be placed in quotes and the source referenced with author's name, date of publication, and page number of publication.** If the author's ideas are rephrased, by transposing words or expressing the same idea using different words, the idea must be attributed to the author by proper referencing, giving the author's name and date of publication. If a single author's ideas are discussed in more than one paragraph, the author must be referenced at the end of each paragraph. Authors whose words or ideas have been used in the preparation of a paper must be listed in the references cited at the end of the paper. Students are encouraged to review the plagiarism module from the UT Arlington Central Library via <http://library.uta.edu/tutorials/Plagiarism>.

Assignment and course grade penalties can occur with issues of plagiarism. **Plagiarism in this course is taken very seriously. Any breach of plagiarism in course assignments will result in counseling with the student by the Faculty/Coaches and possible reduction in the assignment and/or course grade to zero. This type of breach also may be reported to the UTA Office of Student Conduct by the faculty. This can affect a student's progression and enrollment at UTA.**

Electronic Communication

UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. **All students are assigned a MavMail account and are responsible for checking the inbox regularly.** There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

Student Feedback Survey

At the end of each term, students enrolled in face-to-face and online classes categorized as "lecture," "seminar," or "laboratory" are directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback via the SFS database is

aggregated with that of other students enrolled in the course. Students' anonymity will be protected to the extent that the law allows. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law and aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit <http://www.uta.edu/sfs>.

Final Review Week

For semester-long courses, a period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.

Emergency Exit Procedures

Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit, which is located at the end of each hall in Pickard Hall. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

Student Success Faculty:

In order to assist masters nursing students who are at academic risk or who need academic support, there are graduate faculty members available to you. The goal of the success faculty members is to support student achievement in masters-level coursework so students can reach their educational goals. Students may contact a success faculty member directly, or a course instructor may encourage you to contact a success faculty member.

The success faculty in the MSN Program:

Dr. Donelle Barnes is available as a writing coach to assist students in the MSN Core courses; theory, research, and evidence based practice. Since these courses are writing intensive, Dr. Barnes can help students improve the clarity and organization of their written papers. She can be reached via email: donelle@uta.edu.

Dr. Mary Schira is available as a success faculty to assist with diverse resources that may include study skills, testing challenges/approaches, managing multiple responsibilities, and addressing personal

issues impacting academic performance. Course content challenges may also be addressed, with referral to additional resources as indicated. Dr. Schira can be reached via email: schira@uta.edu.

Students in the MSN program are expected to purchase a copy of the most recent Publication Manual of the American Psychological Association. APA style manual will be used by the UTA-CONHI with some specific requirements for graduate courses. Please use the title page template for all papers in this course. A *Microsoft Word* version of this template is also located in *Blackboard* for your convenience.

Save copies of all of your work! Create a folder on your computer that is specifically for this course. As you create a new document for each assignment, save it in your course folder with your last name first in the file name and then submit it by the due date and time.

General Guidelines for All Written Work

These guidelines have been developed to help students know the mechanics of writing a paper. The *APA Publication Manual* is to be used in conjunction with the guidelines to demonstrate referencing style, levels of headings, and proper ways of including direct quotations in the paper. The *APA Publication Manual* also gives additional information about grammar and punctuation, use of numbers and abbreviations, and development of tables or figures, which should be helpful in developing any paper.

1. Each paper should have a formal title page (see Nursing Administration Template in Blackboard Course Resources). It is recommended that the template within this course be downloaded and saved then used as the bases for writing the papers.
2. Pagination: Page numbering starts with the title page and continues through to the reference list and appendices. Arabic (1, 2 etc.) numbers are used.
3. Margins are to be 1 inch on all sides. Text should be left justified only. This means that the right margin may appear irregular. If a word is too long to be completed on one line, it should not be hyphenated. Headers begin at 0.5 inch from the top allowing the Running head: ALL CAPS to be placed on the first line of the Title page. See the template for more details.
4. Type size and font: Type should be Times New Roman font and 12 characters per inch (12 point).
5. Spacing: Double spacing is used for the body of the paper. Single spacing may be used in tables and figures only. **DO NOT** leave any blank lines between paragraphs or sections. No triple spacing. **DO NOT** single space in between references on the Reference page. **DO** double-space the entire list of references.
6. Headers: Running headers are expected in APA 6th Ed.
7. Headings within the paper are essential. First, develop an outline of your paper and count the number of levels you plan to incorporate. The title of the paper is not a heading so it is not considered in the number of levels required. Grading Criteria Sheets are helpful in determining appropriate headings for specific assignments. See the *APA Publication Manual* for further guidance.
8. Please remember the title of the paper should also appear on the first page of the text and should be the same as that on the title page. The title is not a heading and **is not counted** in the levels of headings.
9. An introduction without heading (simply start the introduction under the title of the first page of the text) and conclusion/summary with heading is expected for all papers in this course. There should not be a heading over the introduction however there should be one used for the Conclusion section of the paper.

10. Quotations: In general, avoid the use of direct quotes. Re-state the point in your own words and include the appropriate citation. For ways to properly cite quotations of greater than 40 words, see the *APA Publications Manual*. However, keep in mind lengthy quotes are not what these papers are about, it should be your voice and opinions that are well supported by the literature that you have sought out and properly cited.
11. Reference list: See the *APA Publications Manual*. The reference list includes only the references cited within the text of the paper. Double space the references do not use single spacing. Do not add additional line spacing between references.

Note: Be sure the paper you submit for grading is complete, since that is the paper that will be graded.
