

# MATH 3330-001: Linear Algebra Fall 2016

**Instructor:** Prof. M. Vancliff    PKH 462    [vancliff@uta.edu](mailto:vancliff@uta.edu)    817-272-3932

**Web pages:**    <http://www.uta.edu/math/vancliff/T/F16>                      <http://www.uta.edu/math/vancliff>  
<https://www.uta.edu/profiles/michaela-vancliff>

**Course Classroom:** PKH 105                      **Course Time:** Tues/Thurs 2:00-3:20 pm.

**Instructor's Office Hours:** see <http://www.uta.edu/math/vancliff/T/F16/index.html#3330>

**Textbook:** Linear Algebra with Applications, 5th Ed, O. Bretscher, Prentice Hall.

**Prerequisite:** A, B or C in Calculus I; Calculus II strongly encouraged.

**Attendance:** the instructor of this class chooses to record attendance and it will factor into the students' grades (see "weighting" below). You are responsible for any, and all, announcements made in class and on the course website. You are responsible for any, and all, material missed during lecture. If you miss a lecture, you can figure out the material covered by checking the homework assignment for that day.

Note that the U.S. Department of Education requires that UTA have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UTA instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date the student attended their class; this date is reported to the Department of Education for federal financial aid recipients.

**Tests:** Quiz: Tues Sept 13 (15 minutes) = 0%;                      Test 1: Thurs Sept 22 (20 minutes) = 12%;  
Test 2: Thurs Oct 20 (30 minutes) = 18%;                      Test 3: Thurs Nov 17 (70 minutes) = 32%;  
Final Test: 2:00-4:30 pm on Tues Dec 13 = 38%.  
All tests are comprehensive.                      Bring photo ID to all tests.

**Weighting:** each test will be "curved" separately and its grade (not score) will contribute to your course grade.

If you have a nonzero score on each of Tests 1-3 and if the grade on your Final Test is higher than your lowest grade from Tests 1-3, then your lowest grade will be replaced by the grade from the Final Test.

Good attendance & participation will help your course grade if your course grade is borderline. **Any student who does not earn a nonzero score on the Final Test for this class will not pass this class.**

**Important Dates:** Mon Sept 12 = Census date;    Tests (see above): Sept 13, Sept 22, Oct 20, Nov 17, Dec 13;  
Wed Nov 2, 4 pm = last day/time to drop course with W (see page 3); Nov 24-25 = Thanksgiving Holiday;  
Tues Dec 6 = our last class.    Note these dates in your calendar!

**Student Learning Outcomes:** upon completion of this course, students should be able to do the following: solve systems of linear equations without the aid of a calculator and interpret the results geometrically; give the geometric meaning of linear transformations and express them in different coordinate systems; calculate the kernel, range, determinant, eigenvectors and eigenvalues of a linear map; identify a basis of a vector space, and solve problems involving orthogonal projection and orthonormal bases. Additionally, students should be able to justify and explain their steps in problem solving; in particular, students should be able to construct correct and detailed mathematical arguments to justify their claimed solutions to problems.

Any student planning a career that uses differential equations (e.g., all flavors of engineering) or geometry (e.g., computer science) or data analysis (e.g., financial mathematics) or higher-order thinking skills (e.g., cryptology or geology) will use linear algebra; it is ubiquitous in the sciences. Your future classes in your major will focus on applications; this class will focus on the mathematics.

**Course Schedule:** the homework from Fall 2015 gives a rough [outline](#) of which topics will be covered in which lectures. Of course, snow/ice days etc will interfere with exact date of coverage.

**Honors Students:** students wishing to earn honors credit for this course should send the instructor an e-mail as soon as possible.

**Homework:** the homework will be posted [online](#). It will not be collected, but is assigned to help you learn the material and prepare for the tests. It is your brain exercise. The tests will be designed to determine whether you have mastered the ideas in the homework and in the lectures. Indeed, at least half of each test will be based on homework problems. Some reading might also be assigned, owing to the amount of material that we need to cover.

**Calculators:** no calculator is allowed on any test, so you are advised not to use one on the homework.

**Expectations for Out-of-Class Study:** beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least 9 hours/week outside class in course-related activities, including reading materials, completing assignments, preparing for tests, etc. The best way to guarantee a good grade in this course is to take good lecture notes and to read them over after class before starting the homework, and to do ALL the assignments on a regular basis and to discuss the material with each other. After completing any one assignment, put together a list of the ideas you learned in doing that assignment; keep your list to help in studying for the tests. It is very important that you know how to work out the homework problems correctly. If you use a solutions manual, be sure to use it in a way that helps you understand & remember the concepts and arguments. See the [course website](#) for a link to a list of techniques on how to study.

**Help Outside Class Time:** feel free to ask the instructor **relevant** questions during class & right after class. You can also go to the instructor's office hours. You can also e-mail the instructor questions, or you can ask the instructor to look over your solution to a homework problem. No appointment is necessary for office hours. The Math Clinic in PKH 325 is also available to help you, when it is open.

**Student Support Services:** in addition to the resources provided by this class (& on the course website, which you should check every couple of days), UTA provides a variety of resources and programs designed to help students develop academic skills, deal with personal situations, and better understand concepts and information related to their courses. Resources include [tutoring](#), [major-based learning centers](#), developmental education, [advising and mentoring](#), personal counseling, and [federally funded programs](#). For individualized referrals, students should either visit the reception desk at University College, or call the Maverick Resource Hotline at 817-272-6107, or send a message to [resources@uta.edu](mailto:resources@uta.edu), or view the information at <http://www.uta.edu/universitycollege/resources/index.php>. **The IDEAS Center** (2<sup>nd</sup> Floor of Central Library) offers **free** tutoring to all students (with focus on transfer students, sophomores, veterans and others undergoing a transition to UTA). To schedule an appointment with a peer tutor or mentor, e-mail [IDEAS@uta.edu](mailto:IDEAS@uta.edu) or call (817) 272-6593. Also, a list of tutors is available from the Mathematics Department Office, but note that this list is not endorsed by the Mathematics Department.

**Conflict with Test Dates:** students who miss tests due to UNauthorized reasons will NOT be accommodated. Your personal commitments (e.g., job) must accommodate the test dates/times. If you have a conflict with a test, or if you miss a test, you should contact the instructor as soon as possible (in person, by e-mail, or by phone (leave a message on instructor's office answering machine (NOT with the math office) if the instructor is not there)). If you miss any test for an authorized reason which can be verified with official documentation (e.g., hospitalization), then accommodations will be offered (no make-up tests). Any student who does not earn a nonzero score on the Final Test for this class will not pass this class.

**Americans with Disabilities Act:** UTA is on record as being committed to both the spirit & letter of all federal equal-opportunity legislation, including *The Americans with Disabilities Act (ADA)*, *The Americans with Disabilities Amendments Act (ADAAA)*, and *Section 504 of the Rehabilitation Act*. All instructors at UTA are required by law to provide “reasonable accommodations” to students with disabilities, so as not to discriminate on the basis of disability. Students are responsible for providing the instructor with official notification in the form of a **letter certified** by the [Office for Students with Disabilities \(OSD\)](#), & only those students who have officially documented a need for an accommodation will have their request honored. See the [OSD](#) for more information on accommodations and conditions that qualify for accommodations.

Furthermore, if a student has an officially recognized disability, and would like special arrangements for any test, then s/he **should notify the instructor** informally (e.g., by e-mail) **as soon as possible** so that appropriate arrangements can be made in time for the first test. The instructor is happy to help in such cases, but early advance notification helps the instructor a lot in this endeavor.

**Drop Policy:** students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if s/he does not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through UTA might be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/ao/fao/>). See page 1 above for the drop date for this semester.

**Academic Integrity:** students enrolled in UT Arlington courses are expected to adhere to the UT Arlington Honor Code:

*I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.*

*I promise that I will submit only work that I personally create or contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.*

UTA faculty members may employ the Honor Code as they see fit in their courses, including (but not limited to) having students acknowledge the honor code as part of a test or requiring students incorporate the honor code into any work submitted. Per UT System *Regents' Rule* 50101, §2.2, suspected violations of university's standards for academic integrity (including the Honor Code) will be referred to the Office of Student Conduct. Violators will be disciplined in accordance with UTA policy, which might result in the student's suspension or expulsion from UTA & a grade of FAIL in the class given to involved student(s). In particular, the Regents' Rules and Regulations states: scholastic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, the submission for credit of any work or material that are attributable in whole or in part to another person, taking a test for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts".

Photo-ID is REQUIRED at all tests. UTA has informed all its instructors that steps should be taken to discourage cheating on tests. Consequently, the instructor will uphold the following during the tests:

- cellular phones & other electronic devices need to be OFF (not silent mode);
- all items not needed for the test, including cellular phones & other electronic devices, should be placed on the floor by the side wall;
- if you wish to leave the room during a test, you should ask permission first and turn in your test to the test proctor & only in exceptional circumstances will you be permitted to continue the test should you return (so it is better to be 3 minutes late to the test, rather than ask to go to the restroom during the test);
- if you finish a test early but prefer to stay in the room, then you should NOT get out any work, book nor item, no matter what the subject matter is.

Remember, in any test, keep your eyes on your own work only.

**In-Class Behavior:** during all classes & tests, cellular phones should be SWITCHED OFF and any electronic device not used for learning the class material should be out of sight. UTA reserves the right to impose disciplinary action for any kind of infraction of UTA policies. Engagement in conduct that disrupts, obstructs or interferes with activities authorized by UTA will result in disciplinary action against the perpetrator(s). Such conduct includes (but is not limited to) leaving and returning to the room frequently during class (even for restroom breaks), refusing to put one's belongings by the wall when asked to do so, the use of a cellular phone, ringing cellular phones, etc.

**Counseling:** counseling and psychological services are available to all students by calling 817-272-3671; see [www.uta.edu/caps/](http://www.uta.edu/caps/) .

**Emergency Exit Procedures:** should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exit, i.e., turn right & head to the exit door down the hall on the right. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. During a tornado warning siren, students are advised to congregate in PKH 110 (turn left out of our classroom), or in a classroom near PKH 110 without a window. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

**Campus Carry:** effective August 1, 2016, the Campus Carry law (Senate Bill 11) allows licensed individuals to carry a concealed handgun in buildings at UTA, except in locations UTA has established as prohibited. Under the new law, openly carrying handguns is not allowed at UTA. For more information, visit <http://www.uta.edu/news/info/campus-carry/> .

**Electronic Communication:** UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. All students are assigned a MavMail account and are responsible for checking the inbox regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php> .

**Student Feedback Survey:** at the end of each term, students enrolled in classes categorized as “lecture,” “seminar,” or “laboratory” shall be directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback enters the SFS database anonymously and is aggregated with that of other students enrolled in the course. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law; students are strongly urged to participate. For more information, visit <http://www.uta.edu/sfs> .

**Final Review Week:** a period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the course grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. **During this week, classes are held as scheduled.** In addition, instructors are not required to limit content to topics that have been previously covered; **instructors may introduce new concepts as appropriate.**

**Writing Center:** the Writing Center, 411 Central Library, offers individual 40-minute sessions to review assignments, *Quick Hits* (5-10 minute quick answers to questions), and workshops on grammar and specific writing projects. Visit <https://uta.mywconline.com> to register and make appointments. For hours & other information visit [www.uta.edu/owl/](http://www.uta.edu/owl/) .

**Non-Discrimination Policy:** UTA does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. For more information, visit [uta.edu/eos](http://uta.edu/eos) .

**Title IX:** UTA is committed to upholding Title IX of the Higher Education Amendments Act of 1972 (Title IX), Title VII of the Civil Rights Act of 1964 (Title VII), and the Campus Sexual Violence Elimination Act (SaVE Act). Sexual harassment and sexual misconduct in any form are prohibited and will not be tolerated; any individuals who engage in such conduct will be subject to disciplinary action. For more information, visit [www.uta.edu/titleIX](http://www.uta.edu/titleIX) .

**Some Library Resources:**

- Library Home Page..... <http://www.uta.edu/library>
