B. Student Learning Outcomes

SOCW 4329/6329 addresses the following foundation educational objectives:

1. Apply critical thinking skills within the context of professional social work practice.
2. Practice without discrimination and with respect, knowledge, and skills related to clients' age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.
3. Understand the forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice.
4. Use theoretical frameworks supported by empirical evidence to understand individual development and behavior across the life span and the interactions among individuals and between individuals and families, groups, organizations, and communities.
5. Evaluate research studies, apply research findings to practice, and evaluate their own practice interventions.

Core Competencies and Practice Behaviors

SOCW 4329/6329 addresses the following Council on Social Work Education (CSWE) Educational Policy and Accreditation Standards (EPAS) requirements for Core Competencies and Practice Behaviors:

Educational Policy 2.1.2—Apply social work ethical principles to guide professional practice. [Social workers have an obligation to conduct themselves ethically and to engage in ethical decision-making. Social workers are knowledgeable about the value base of the profession, its ethical standards, and relevant law. Social workers:]

- (a) Recognize and manage personal values in a way that allows professional values to guide practice.
- (b) Make ethical decisions by applying standards of the National Association of Social Workers Code of Ethics and, as applicable, of the International Federation of Social Workers/International Association of Social Workers
- (c) Tolerate ambiguity in resolving ethical conflicts; and
- (d) Apply strategies of ethical reasoning to arrive at principled decisions.

Educational Policy 2.1.3—Apply critical thinking to inform and communicate professional judgments. [Social workers are knowledgeable about the principles of logic, scientific inquiry, and reasoned discernment. They use critical thinking augmented by creativity and curiosity. Critical thinking also requires the synthesis and communication of relevant information. Social workers:]

- (a) Distinguish, appraise, and integrate multiple sources of knowledge, including research-based knowledge, and practice wisdom.

Educational Policy 2.1.4—Engage diversity and difference in practice. [Social workers understand how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers:]

- (a) Recognize the extent to which a culture's structures and values may oppress, marginalize, alienate, or create or enhance privilege and power.
- (b) Gain sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups.
- (c) Recognize and communicate their understanding of the importance of difference in shaping life experiences; and
- (d) View themselves as learners and engage those with whom they work as informants.

Educational Policy 2.1.5—Advance human rights and social and economic justice. [Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers recognize the global interconnections of oppression and are knowledgeable about theories of justice and strategies to promote human and civil rights. Social work incorporates social justice practices in organizations, institutions, and society to ensure that these basic human rights are distributed equitably and without prejudice. Social workers]

- (a) Understand the forms and mechanisms of oppression and discrimination.
- (b) Advocate for human rights and social and economic justice; and
- (c) Engage in practices that advance social and economic justice.

Educational Policy 2.1.6—Engage in research-informed practice and practice-informed research. [Social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery. Social

workers comprehend quantitative and qualitative research and understand scientific and ethical approaches to building knowledge. Social workers:]

(a) Use research evidence to inform practice.

Educational Policy 2.1.7—Apply knowledge of human behavior and the social environment. [Social workers are knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in promoting and maintaining health and well being. Social workers apply theories and knowledge from the liberal arts to understand biological, social, cultural, psychological, and spiritual development. Social workers:]

1. utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation; and
2. critique and apply knowledge to understand person and environment.

By the end of the semester, students should be able to demonstrate the following knowledge areas through their course assignments, papers, examinations, and group projects:

This course aims at enabling students to:

1. Identify theoretical, policy, and practice issues related to justice-involved people. (EP 2.1.4 (a-d), 2.1.5 (a-c), 2.1.7 (a & b); Achieved through: DB, Final Exam, Paper)

E. Descriptions of Major Assignments and Examinations

Note. Much of what students learn in the classroom is affected by two sources: the level of effort contributed by the individual and the learning community that is created through the shared ownership and contributions of the collective whole. Everyone is asked to participate to her or his fullest extent in the learning environment, and to facilitate others' ability to participate at the same time. This means that we come prepared to join in the classroom learning experience by having our readings and other work completed, we respect ourselves and others who are posting on the discussion boards, and we take responsibility for completing assignments in a competent and timely manner. But much more than this, it also means that we each take a shared responsibility for the growth and professional development of each of the individuals in our learning community. The assignments for this course have been designed with these ideas in mind.

NOTE: Please refer to our Blackboard course for session readings, course material, discussion topics, and assignment dates.

Assignments:

Discussion board posting 10 postings, 10 points total Due as assigned via Blackboard

Throughout the semester, we will have 10 discussion entries on blackboard. These discussions will build upon the week's topic and be used for expanding the class's insight into the given topic. It is expected that the discussion board post will be thoughtful and assist in the purpose of the discussion. Your original post should be 300 to 500 words (2 to 3 good paragraphs). Your responses should be thoughtful and respectful. **There is no partial credit. You must make an original post and respond to a classmate to get the point for the discussion entry.**

Note: Discussion entries will be due on Sunday nights at 11:59, and peer responses will be due by Wednesday night at 11:59.

Annotated Bibliography (AB) 25 points

Due 03/23/17 submitted via Blackboard

The purpose of this assignment is to assist you in identifying and synthesizing peer reviewed articles as they relate to your population of interest and subsequent Paper. You will be responsible for completing a review (in annotated bibliography form) of peer reviewed journal articles in the area of your chosen interest. **The topic area must relate to this course (Forensic Social Work) and be approved by the professor.** A place on Blackboard is available for submission of the topic. A template for this assignment will be provided on Blackboard. Typically, each entry from an article in the annotated bibliography is a half page to one page. For undergraduate students, you will need 7-10 articles for this review. For graduate students, you will need 10-15 articles for this review.

Literature Review Paper (35 points)

Due 05/04/17 submitted via Blackboard

The purpose of this paper is to allow you the opportunity to research a specific area of interest (need) within your chosen population, drawing upon core concepts learned throughout the semester. In this assignment, you will continue the work you previously started in the annotated bibliography assignment, building upon your problem statement and research. This analysis will utilize comprehensive materials covered throughout the semester, including: text, external materials, lecture materials, and your own research using peer-reviewed journal articles. For undergraduate students, this paper is 7 to 10 pages. For graduate students, this paper is 10-15 pages.

A note on written assignments: Please do not plagiarize. Work should be cited if it is not your own. This includes writing in the discussion forum and both papers. As an exception in the discussion forum, if the forum question relates to a specific reading, you do not need to cite that reading when talking about it since we understand what you are referring to. Other writings should be cited though. Direct quotes should be exceptionally rare in all writing. While it is possible to put together a paper that uses direct quotes for nearly every paragraph, this does not reflect your original work. I want your papers to reflect your words and your thoughts. **As such, undergraduate students may not have more than 3 direct quotes in their final paper. Graduate students may not have more than one direct quote in their final papers. Annotated bibliographies should not contain any direct quotes.**

Final Exam (30 points)

Available for completion on 04/27/17. Must be submitted before midnight on 05/04/17.

There will be a Final Exam in this course. It will be administered online and will be worth 30 points. It will be a combination of multiple choice and short answer questions.

F. Grading

This course uses a standard 90-80-70 grading scale. The course has 100 points broken down as follows:

Discussion boards	10 points
Annotated Bibliography	25 points
Paper	35 points
Final Exam	30 points

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels; see "Student Support Services," below.

G. Make-Up Exams

Late assignments are deducted 10% every day late up to 5 days late. After the 5th day, the assignment will not be accepted and will be recorded as 0.

H. Attendance

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via Blackboard. This date is reported to the Department of Education for federal financial aid recipients. As the instructor of this section,

Attendance is required for the course. I will take attendance each night. In class, we will go over the week's assignments as well as work on the final project for the course. Points are not attached to attendance, however. If you will miss class, you may notify in advance but it is not required that you do so. A reason is not required and my approval is not required. In a graduate course, I expect that as adults you understand the importance of attending a class and its potential impact on your performance. I assume if you miss class, you did with this consideration in mind. Regardless of your attendance in class, you are responsible for the material covered on that day.

When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

O. Drop Policy

Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (<http://www.uta.edu/aao/fao/>).

P. Disability Accommodations

UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including *The Americans with Disabilities Act (ADA)*, *The Americans with Disabilities Amendments Act (ADAAA)*, and *Section 504 of the Rehabilitation Act*. V. Student Feedback Survey

At the end of each term, students enrolled in face-to-face and online classes categorized as "lecture," "seminar," or "laboratory" are directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student's feedback via the SFS database is aggregated with that of other students enrolled in the course. Students' anonymity will be protected to the extent that the law allows. UT Arlington's effort to solicit, gather, tabulate, and publish student feedback is required by state law and aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit <http://www.uta.edu/sfs>.

W. Final Review Week

For semester-long courses, a period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered;

they may introduce new concepts as appropriate.
