

Biology 2458 Human Anatomy and Physiology II

Lab Syllabus Summer 2017

CLASSROOM

Life Science Life Sciences (LS), Room 348 & 352

LAB MANUAL

Laboratory Manual for Anatomy and Physiology, Fetal Pig Version by Elaine N. Marieb and Lori A. Smith is required. The version must be purchased at the university bookstore because it has been customized for this specific course at UTA.

Dr. Pollock is the lab coordinator for all Human Anatomy & Physiology labs. Any rescheduling of a quiz or practical must be addressed by him. Any other questions and concerns about labs should be directed to your GTA. Any issues that cannot be, or are not, addressed by your GTA should then be directed to Dr. Pollock via email, office hours, or by appointment.

Dr. Nicholas Pollock (nicholas.pollock@uta.edu)
Life Sciences, Room 466
Office Hours: by appointment

LABORATORY INSTRUCTOR INFORMATION

Instructor	Days/Times (section)	Room	Email
Collin Funkhouser	TTH 1-3 pm (03)	LS 352	collin@uta.edu
Raisa Amin	TTH 1-3 pm (04)	LS 348	mustafi.raisaamin@uta.edu
Nicole Hales	MW 1-3 pm (05)	LS 352	nicole.hales@uta.edu
Kathleen Currie	MW 1-3 pm (06)	LS 348	kathleen.currie@uta.edu
Richard Adams	TTH 8-10 am (07)	LS 352	radams@uta.edu
Mohammad Eslamieh	MW 8-10 am (08)	LS 352	eslamieh@uta.edu

STUDENT LEARNING OUTCOMES

Laboratory goals are to introduce the student to human form and function. While Human A&P I had a particularly strong focus on human structural anatomy. This course, Human A&P II will have a stronger focus on human physiology. Students will use models, tissue slides, dissections, and various tools and techniques to examine and study the basic anatomy

and physiology of the cardiovascular, respiratory, digestive, urinary, and reproductive systems.

LABORATORY SCHEDULE

This is a tentative schedule and may be changed at the discretion of the lab coordinator, particularly in the case of unforeseen circumstances such as weather, power outages, etc. Ideally, email notices will be sent with 24 hours notice (if possible) to your MavMail account. Notices will also be placed on the classroom door.

Week	DATES	TOPICS
1	July 10 to July 11	No Labs
	July 12 to July 13	Cardiovascular System: Blood
2	July 17 to July 18	Cardiovascular System: Heart Anatomy Quiz 1
	July 19 to July 20	Due Date for Topics!!! Cardiovascular System: Blood Vessels Quiz 2 Cardiovascular Physiology
3	July 24 to July 25	Respiratory System: Anatomy Quiz 3 Respiratory Physiology
	July 26 to July 27	Digestive System Quiz 4
4	July 31 to August 1	Urinary System Urinalysis
	August 2 to August 3	Reproductive System Quiz 5
5	August 7 to August 8	Group Presentations Review
	August 9 to August 10	Practical

GRADING POLICY

Laboratory is worth **35%** of the total course grade. The lecture professor will be given both a percentage and a point total for each student.

- You are **NOT** permitted to drop either the lecture or laboratory. Drops and withdrawals will be applied to both.
- A failing grade in laboratory will result in a failing grade for the overall course.
- Group work does **NOT** mean that one person does the assignment and everyone gets the grade. If your lab instructor feels confident that you did not participate in a group assignment, you will receive a reduced grade or a grade of 0.
- Evidence of collusion on individual assignments will result in a grade of 0 for both parties.
- All grades will be posted on Blackboard within 1 week of completion.
- Students have **one week** from the time a grade is posted on Blackboard to dispute the grade. Grades cannot be contested after this deadline has passed.

- Course policy prohibits extra credit in any form.

**** Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels.**

<u>Assignments</u>	<u>Value</u>
Quizzes*	75
Group Presentation	20
<u>Practical</u>	<u>125</u>
Total	220

* 5 quizzes @ 15 pts each

Grading scale:

Lab points	Letter Grade
198-220	A (90-100%)
176-197	B (80-89%)
154-175	C (70-79%)
132-153	D (60-69%)
< 132	F (0-59%)

EXPECTATIONS

Attend every lab and participate in all experiments and exercises. Show up prepared by reading the upcoming laboratory background, completing the pre-lab when applicable, and reviewing the previous labs. Turn in all assignments on time in the required format. Failure to do so will result in a reduced laboratory grade.

In addition, it is expected that all students:

1. Be respectful to your instructor, undergraduate TA, and peers at all times. Behavior that is rude, aggressive, or inappropriate will be reported immediately to the Laboratory Coordinator and may be referred to the Associate Chair of Biology. Your instructor reserves the right to ask you to leave class and such behavior may affect your grade.
2. Turn off and put away all electronic devices during class. Cell phones will NOT be permitted in class at any time. Your instructor reserves the right to dismiss you from class for having a cell phone out. Missed assignments/quizzes cannot be made up.
3. Be attentive to the information and instructions that your instructor provides.
4. Check your email as the lab instructor will use this form of communication to inform you of important dates and reminders regarding the lab.
5. Abide by all rules and regulations regarding safety conduct in the lab. SEE BELOW.
6. By enrolling as a student at UTA, you have agreed to abide by the University's Honor code. Ultimately, it is your responsibility to ensure that you abide by this promise and uphold the integrity of UTA. If you are unsure if your assignment contains

plagiarism, it is your responsibility to meet with your instructor to get help prior to submitting the assignment.

7. Your education is your responsibility. The best way to get the grades that you desire, and to achieve success in the course, is to work hard, study, and dedicate time to learning the material and developing strong scientific writing skills.

LABORATORY POLICIES

Attendance:

1. Attendance is mandatory.
2. You must attend the section that you are enrolled in. You will not be given credit for work completed in a section you did not receive approval to attend.
3. There will be no make-up labs or assignments to take the place of missed lab exercises. You must be present to understand the material.
4. If you must miss a lab, contact the lab coordinator prior to the absence. You will be permitted to attend a different lab section one time per semester with a legitimate, documented excuse (e.g., medical, death in the immediate family, illness of a family member for which you are the primary care provider).
5. No absence will be considered excused without appropriate documentation, regardless of the cause. Documentation of an excused absence MUST be provided to your instructor by the following week's lab. Absences due to conflicts with work or a planned trip will not be excused.
6. If you are unable to contact the lab coordinator prior to missing lab (due to sickness, accident, etc.), you must notify him of the cause of the absence within 24 hours of the missed lab. Absences brought to attention after this time will not be considered excused regardless of reason or documentation.

Blackboard:

All grades, and information, including this syllabus can be found on Blackboard. Outlines of required structures will also be on Blackboard, and need to be printed out prior to attending each lab. If you have any questions, please check this syllabus and Blackboard first, if you still cannot find the information you are looking for, then you may email me.

Lab Practical:

This will serve as the lab final exam, and is worth 125 points. The practical will consist of 25 stations with 2 questions per station (50 questions total). Questions will be short answer, fill-in-the-blank, and multiple choice. You will have 60 seconds for each station the first time around the questions, and another 30 seconds the second time around the questions. All questions will be chosen from material included in lab exercises and student outlines. There is no make-up final. Students who have an acceptable, documented excuse and prior approval of Dr. Pollock will be allowed to take the final in a different section that same week. Students coming late will forfeit the time they have missed and may not be admitted to the exam altogether. A picture ID (student ID or Driver's License) is required for entrance to the practical.

Quizzes:

Quizzes will be given at the start of lab. Material covered will include all material covered in previous labs. You should plan to spend time studying for these quizzes since they are a large part of your laboratory grade and will be used to follow your learning progress. Since quizzes will be given at the start of lab, if you arrive late and miss the quiz, you will receive a 0. Make-up quizzes will not be given in any case of unexcused absence or tardiness.

Group presentation:

Presenting scientific and medical findings to an audience is an important skill. Working with others is also very important. To facilitate these skills, students will be required to participate in a group presentation of a research topic of the groups choosing a disease, disorder, clinical manifestation, or new treatment in one of the systems of this course: cardiovascular, respiratory, digestive, urinary, and reproductive systems. Students will present their findings to the class. Group presentations must be submitted through **SafeAssign** on Blackboard.

Assignment Submission Policies:

1. You must follow submission guidelines in order to receive full credit.
2. Submissions must be in Powerpoint format. Do not submit a PDF to SafeAssign. It will not be graded and you will receive a 0.
3. Do not submit assignments via email. They will not be accepted.
4. Late assignments, or those incorrectly submitted, will not be accepted and will receive a grade of 0.
5. It is your responsibility to submit all assignments correctly and on time. Except in the case of documented technical difficulties, **you will not be given extra time to submit electronic assignments in the case of computer-related issues.**
6. It is recommended that you take a screen shot of successful electronic submissions. Complaints of missing submitted assignments will not be considered without documentation. This requirement also applies to failed submission attempts due to technological difficulties.
7. Do not turn in work that has been completed and submitted for a different class or assignment, you will be reported to student conduct.
8. Submissions through Blackboard are considered final. Requests to clear submission attempts will not be considered, except in cases where technological difficulties can be proven.

The taking of pictures of models, slides, etc. is forbidden.

Models, slides, etc. are available in the Science Education & Career Center (LS 106).

This center offers similar models and slides. Hours of operation are:

Monday – Thursday 9:00 am – 6:00 pm

Friday 9:00 am – 1:00 pm

Saturday Closed

Sunday Closed

ACADEMIC INTEGRITY

Each student has the responsibility to uphold the highest standards of academic

integrity in their own work, to refuse to tolerate violations of academic integrity in the university community, and to foster a high sense of integrity and social responsibility on the part of the university community. Cheating and Plagiarism: Plagiarism is defined as the use of any information, published, or unpublished without acknowledgement. Cheating occurs when you use the work of another student in place of your own. Neither will be tolerated. It is extremely important that you distinguish your own ideas from those of others. You must always acknowledge sources. If you have any questions, see me.

SAFETY

1. Safety attire consists of **long pants that cover the ankle and shoes that cover the toes and the top of the foot.** Safety goggles will be required for select labs.
2. Failure to wear safety attire in each lab (goggles, long pants, and close toed shoes) will result in dismissal from lab and receiving a grade of 0 on any quiz or assignment missed.
3. **There is absolutely no food, drinks, and gum permitted in the lab at any time.**
4. All personal materials, other than your lab manual and writing utensil must be stowed in the designated area. This includes all bags, coats, electronic devices, and other personal belongings.

Mandatory University Online Safety Training: Students registered for this course must complete all required lab safety training prior to entering the lab and participating in any activities. Once completed, the lab safety training is valid for the remainder of the same academic year (i.e., through the following August) and must be completed a new in subsequent years. There are no exceptions to this university policy. Failure to complete this required training will prevent participation in any lab activities, including those for which a grade is assigned.

Lab Safety Training Course Instructions:

1. Use Mozilla Firefox 3.0 as your web browser: <https://www.mozilla.org/en-US/firefox/new/>
2. Login to your Blackboard with your NetID and password.
3. Under the "My Blackboard" tab, click "Lab Safety Training".
** Tab will be present only if training is required.
4. Click "Welcome" from the left pane to start and follow the instructions.

You MUST complete this training. Students who have not completed the training by the second week of lab will be unable to attend lab and may be dropped from the lab (and consequently the lecture).

CONFLICT RESOLUTION

If you are experiencing an issue in lab, you must first arrange a meeting with your lab instructor. If the issue remains unresolved after you have met with your lab instructor, you may then consult the Laboratory Coordinator, Dr. Nick Pollock. If the issue still requires attention, you may consult the Associate Chair of the Department of Biology, Dr.

Laura Mydlarz. To do this you need to file a grievance at <https://www.uta.edu/php-lib/machform/view.php?id=3403>. You must file the form in order to have your issue heard. None of the listed personnel will discuss the issue with you until you have first consulted all of those preceding him/her.

AMERICANS WITH DISABILITIES ACT

Lab instructors are required by law to provide “reasonable accommodation” to students with disabilities, so as not to discriminate on the basis of disability. Student responsibility consists of informing the lab coordinator and lab instructor by the end of the second week of labs, and prior to any assignments, quizzes, or activities that require accommodation.

Only those students who have officially documented a need for an accommodation will have their request honored. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at www.uta.edu/disability or by calling the Office for Students with Disabilities (University Hall, Room 102, 817-272-3364).

TITLE IX

The University of Texas at Arlington is committed to upholding U.S. Federal Law “Title IX” such that no member of the UT Arlington community shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity. For more information, visit www.uta.edu/titleIX.
