Check your Pathway to Graduation for detailed instructions regarding what you must do concurrently with each academic course to ensure you are ready for your clinical experience!

If you do not have access to your online Pathway to Graduation please notify your advisor. You will need to check and use your Pathway to Graduation concurrently with every course throughout the MSN-FNP degree program.

**Textbooks (Including Titles, Authors, Edition and Publisher) or Equipment - REQUIRED:**

Textbooks from previous didactic courses and current Med U subscription.

**Textbooks or Equipment: SUPPLEMENTAL (Not Required):**

Provided within modules.

**Attendance Policy:**

Student attendance in this online course is required virtually as needed to successfully

complete course assignments and assessments within the required timelines.

### **Course Expectations:**

The amount of time required by students to study and complete assignments in this course will vary according to students' previous professional experiences, prior learning, and, the pace at which one works. While having completed multiple years of practice generally provides students an advantage, these same students sometimes find themselves having to "unlearn" practices that are not supported by the most recent evidence or research. Students with fewer years of nursing experience will generally find themselves working more diligently to quickly increase their overall knowledge base – knowledge that their classmates may have developed over multiple years of working in healthcare settings.

It is recommended that students schedule a minimum of 15 hours per week to study and complete their online content in this didactic (non-clinical) course, however, some weeks may require fewer hours and other weeks may require more hours.

### **FNP Program Expectations:**

1. GPA of 3.0: Students must maintain a GPA of 3.0. Please seek help immediately if you are at risk of dipping below this GPA. Ready to assist you are:
  - your course professor
  - UTA Student Success Coordinators
  - Your advisor
  - Your retention specialist
2. Let's Get Clinical: Successful completion of the required 760 clinical hours during your last three courses is completely dependent upon successful completion of the "Let's Get Clinical" portion of your Pathway to Graduation. Successful graduation requires both completion of your courses and timely completion of all of the requirements in "Let's Get Clinical."
3. Preceptors and Clinical Sites: Students are responsible for arranging their own preceptors and clinical sites according to guidelines provided. This process begins very early in the overall program to ensure readiness when the clinical courses begin.

Read the test taking tips prior to each quiz and test. Follow these tips to optimize your computer's functionality, enhance blackboard's function, and to minimize technical difficulties.

- Respondus Lockdown Browser with video monitoring will be used to administer each quiz and test. Please make sure to download Respondus prior to taking your first quiz.
- Update Respondus prior to completing each quiz and test.
- Update Java prior to completing each quiz and test.

If The Office of Student Conduct determines the reported student has participated in academic dishonesty the consequences may include any or all of the following: a quiz or test score of zero, course failure, probation, suspension or expulsion from the university.

All of your work is to be in your own words, paraphrased and referenced according to APA style. Using quoted sentences is not an acceptable manner in which to complete any assignment in this course and does not reflect synthesis of the material. Consequently the use of quoted sentences will result in a point deduction up to and including a zero.

## **Safe Assign**

Safe assign is an electronic system which helps to identify plagiarized assignments. All student assignments are subject to being submitted to safe assign at any time to evaluate for plagiarism. ### **Drop Policy:**

Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. ### **Drop Policy:**

Graduate students who wish to change a schedule by either dropping or adding a course must first consult with their Graduate Advisor. Regulations pertaining to adding or dropping courses are described below. Adds and drops may be made through late registration either on the Web at MyMav or in person through the student's academic department. Drops can continue through a point two-thirds of the way through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial

aid administered through the University may be required as the result of dropping classes or withdrawing. Contact the Office of Financial Aid and Scholarships at <http://www.uta.edu/aao/fao/>. The last day to drop a course is listed in the Academic Calendar available at [http://www.uta.edu/records/services/academic-partnership\\_](http://www.uta.edu/records/services/academic-partnership_). A student may not add a course after the end of late registration. A student dropping a graduate course after the Census Date but on or before the last day to drop may, with the agreement of the instructor, receive a grade of W but only if passing the course with a C or better average. A grade of W will not be given if the student does not have at least a C average. In such instances, the student will receive a grade of F if he or she withdraws from the class. Students dropping a course must: (1) Contact course faculty to obtain permission to drop the course with a grade of "W". (2) Contact your graduate advisor to obtain the form and further instructions. **Course Format and Design - Rewrite this to be generic and include in your policy section of the orientation.**

This course is presented completely online and is administered at an accelerated pace. The course builds upon your undergraduate education and will cover a significant amount of content over a short period of time. It is designed to facilitate and guide your learning. As such minimal written lecture content is provided. You will be required to read the text books and synthesize the information to complete all of the course assignments.

As a graduate student the expectations of this course and curriculum are different than your undergraduate education. You are expected to synthesize the information from your readings and be able to apply it to clinical scenarios in a manner which is reflective of advanced practice nursing. As a graduate student you are considered to be an independent learner and if needed identify additional resources to help you understand the concepts in the course.

Supplemental videos have been provided over select concepts for your review. These videos are not mandatory to view but you may find them helpful in understanding some of the content. For testing purposes you are responsible for the content in the text books and the written lectures which have been provided.

This format will require you to spend several hours per week to complete all of the required readings and assignments, as well as completely weekly clinical hours. The majority of the concepts presented in the course are not new but the time you spend weekly will vary depending on many variables.
