

LEARNING CATALYTICS

Learning Catalytics is a 3rd party program embedded into My Labs Plus. We will use it in every lecture for attendance and for extra credit quizzes (Stats Coins).

Upon arrival at lecture meetings, log in to My Labs Plus on any web-enabled device. Click the blue bar that says JOIN SESSION. A new window will pop up where our questions will appear.

If you are prompted to log in to Learning Catalytics, CLOSE THAT WINDOW! In order to use Learning Catalytics, pop-ups must be allowed and cookies must be enabled. Once enabled, refresh your My Labs Plus page (or close and restart your browser) and then join the session.

When we are finished using Learning Catalytics, simply close the Learning Catalytics window. (DO NOT 'LOG OUT' OF LEARNING CATALYTICS.)

To allow pop-ups on most smartphones

FIREFOX

The latest **Firefox** app does not have a pop-up blocker settings option. As you are navigating, you may be prompted to block or allow pop-ups. Tap allow when prompted. In some cases you may need to restart the browser.

CHROME

Android app: Open **Chrome**, and tap 'More Settings' to the right of the address bar. Tap 'Site Settings'; scroll and tap 'Pop-ups'; then slide to allow if needed.

iPhone/iPad app: Open **Chrome**, and tap 'More'. Tap Settings > Content Settings. Scroll to the 'Block Pop-ups' option and slide as needed to allow (or to NOT block).

SAFARI on iPhones

Tap 'Settings' from Home screen. Scroll to and tap **Safari**. Scroll to 'Pop-ups' and ensure the slider is set to NOT block pop-ups. Do this after every update!

Enabling cookies on most smartphones

FIREFOX

Open **Firefox**. Tap the Menu button. Tap Settings (may need to tap 'More' first). Tap Privacy. Tap Cookies and select 'Enabled'.

CHROME

Open **Chrome**. Go to 'More' menu. Tap Settings > Site settings > Cookies. Make sure Cookies are turned on.

SAFARI

Tap Settings from Home screen. Scroll to and tap **Safari**. Scroll to and tap Cookies, then select the 'Always Allow' option. Do this after every update!
