Description of Course Content

This course provides an online introduction to the study of philosophy. Not only will students learn about important philosophical figures, movements, and methodology, but they will be encouraged to identify their own philosophical positions and consider how these positions relate to those of the philosophers we study. Students are also encouraged to consider how particular philosophical issues have been important in their own lives, and to discuss philosophical problems with friends and family outside of class.

Representative topics covered in this course include epistemology, metaphysics, and ethics.

Discussion of these topics will give rise to such questions as ‘What is knowledge?’; ‘Am I free?’;

'Is moral value objective?'; 'What is consciousness?', and, 'What is the fundamental 'stuff' of the universe?'

At the end of the course, students will be able to explain key philosophical concepts and the positions of major figures, and will demonstrate skill in philosophical argumentation. Finally, students will have awareness of their own philosophical positions and the evaluative skills needed for clear, critical and analytic thinking. **This course satisfies the University of Texas at Arlington core curriculum requirement in Language, Philosophy & Culture.**

Discussion Boards/Quizzes: A series of Discussion Boards and Quizzes (6 in all) will be opened, in which students are required to either post in response to a prompt with a minimum of 250 words, or answer quiz questions.

Online Group Debate Wiki: There will be one online group debate in which students will be organized into teams and assigned a particular philosophical proposition to defend. Teams will take turns to produce arguments and responses to the other side of their debate.

Attendance Policy

At The University of Texas at Arlington, taking attendance is not required. Rather, each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. The instructor of this section, given that it is an online course, will not take attendance, but will regularly check your access and participation on this website – including page views. If I am concerned about your participation level, you will be contacted.

Other Requirements

This course is offered in entirety as an online format through Blackboard. It is a requirement and responsibility of each student to have access to a computer and a high speed Internet connection on a daily basis. Review UT Arlington's hardware recommendations: <http://www.uta.edu/oit/cs/hardware/student-laptop-recommend.php> and Blackboard's browser requirements: <http://www.uta.edu/blackboard/browsertest/browsertest.php>.

You will use your Netid and password to login to Blackboard at <https://elearn.uta.edu/>. It is your responsibility to become familiar with Blackboard and how to access course components. There are several Blackboard resources for students including <http://www.uta.edu/blackboard/students/index.php> and <http://help.blackboard.com/>.

This course requires the use of word processing and presentation software that is compatible with Microsoft Office formats. Students may purchase this software (in person or by mail) at a significant discount from the UT Arlington bookstore <http://www.uta.edu/bookstore>.

Expectations of Out-of-Class Study

(The following is from the UTA Student Handbook) “A general rule of thumb is this: for every credit hour earned, a student should spend 3 hours per week working outside of class. Hence, a 3-credit course might have a minimum expectation of 9 hours of reading, study, etc. Beyond the time required to attend each class meeting, students enrolled in this course should expect to spend at least an additional 9 hours per week of their own time in course-related activities, including reading required materials, completing assignments, preparing for exams, etc.” This may be somewhat ambitious. However, you should expect a minimum of an hour of outside class-time study for every hour in-class. **For online classes, expect to spend about 4 - 6 hours *minimum* on each 3-credit class, per week to be successful.**

Drop Policy

Regulations pertaining to adding or dropping courses are described below. Adds and drops may be made through late registration either on the Web at MyMav or in person through the student’s academic department. Drops can continue through a point two-thirds of the way

through the term or session. It is the student's responsibility to officially withdraw if they do not plan to attend after registering. **Students will not be automatically dropped for non-attendance.** Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. Contact the Office of Financial Aid and Scholarships at <http://www.uta.edu/fao/> The last day to drop a course is listed in the Academic Calendar available at <http://www.uta.edu/uta/acadcal.php?session=20166>.

Census Day: XX/XX Last day to drop or withdraw XX/XX by 4:00 p.m.

Campus Carry

Effective August 1, 2016, the Campus Carry law (Senate Bill 11) allows those licensed individuals to carry a concealed handgun in buildings on public university campuses, except in locations the University establishes as prohibited. Under the new law, openly carrying handguns is not allowed on college campuses. For more information, visit

<http://www.uta.edu/news/info/campus-carry/>

Electronic Communication

UT Arlington has adopted MavMail as its official means to communicate with students about important deadlines and events, as well as to transact university-related business regarding financial aid, tuition, grades, graduation, etc. **All students are assigned a MavMail account and are responsible for checking the inbox regularly.** There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at <http://www.uta.edu/oit/cs/email/mavmail.php>.

If you are unable to resolve your issue contact the Helpdesk at helpdesk@uta.edu.

Student Feedback Survey

At the end of each term, students enrolled in face-to-face and online classes categorized as “lecture,” “seminar,” or “laboratory” are directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback via the SFS database is aggregated with that of other students enrolled in the course. Students’ anonymity will be protected to the extent that the law allows. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law and aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit <http://www.uta.edu/sfs>.

Final Review Week

For semester-long courses, a period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week *unless specified in the class syllabus*. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any

portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.
